THREE EDUCATORS

Col. Parker, Mrs. Parker and
Miss Allen at Summer School.

PRES. DOLE'S OPENING ADDRESS

Lectures in Progress Hall—Daily Sessions
to Be Held—Agricultural
Education

The first exercises of the Summer School were held yesterday morning at 9 o'clock in Progress hall. With a half hour of introduction, and opening the regular lectures were commenced and the school session was fairly begun. The selection of Progress hall for the public meetings of the school was a fortunate one. The acoustic properties are excellent, and its situation at the corner of the building insures an abundance of light and air. Before the exercises began Col. Parker com- mented favorably upon the hall and its admirable qualities thoroughly suited to the climate. The assemblage was not restricted to teachers and those intimately connected with technical school work. It was an enthusiastic gathering of men and women interested in advanced education.

The addresses yesterday lacked text book formality. It is the intention of Col. and Mrs. Parker and Miss Allen to make them all so. Their principle in their already successful careers has been to reach the soul, the spirit in the child. Mrs. Parker stated that their lectures were fully as applicable to parents as to teachers. She asked the Advertiser to extend a cordial invitation to all mothers especially to be present. She believes that education should be conducted in the home as well as in the school room.

The unpretentious opening yesterday, with introductory address by President Dole, and a reply by Col. Parker, was itself of much value to educational interests in the islands. President Dole outlined briefly the policy of the Government in the matter of education, especially in agricultural training. He presented to the audience a clear and concise statement of the peculiar conditions which obtain in Hawaii, and told of his own hopes and efforts to establish branches of instruction which would be of the most practical benefit to Hawaiian pupils.

Inspector-General Townsend presented President Dole to his hearers. He referred to the President as the man who for years past had stood as the advocate of agricultural interests, the Sempronius of the Islands. President Dole was received with applause. Although he had heard that he was to make the opening address only that morning he was greatly pleased to be present at the gathering as he was deeply interested in the educational problem of the islands, especially in the matter of agricultural and industrial education in the public schools. He said that he had for years been dissatisfied with the curriculum of Hawaiian schools. His criticism was that it was not adapted to local needs. The majority of the pupils were Hawaiians and Portuguese. It was his belief that the public school should furnish them with the tools which would enable them to earn a livelihood as successfully as possible.

The early missionaries, he said, established common schools, and then later on high schools or so-called industrial schools. At Lahaina, an industrial school was established where Hawaiian boys, the sons of Hawaiians who had for years been given over to heathendom, were taught Greek, and Latin and Hebrew. Higher mathematics, too, were taught them and they paid their way in the school by cultivating on the school grounds taro which they sold to their teachers. There were graduated ministers, who had no further use for their Hebrew; poor surveyors, politicians, office-seekers and lawyers. Many of them ended up as yard men. Their education had been of little practical use to them.

President Dole said that the present course of study was a good one, but not wholly adapted to the present needs. The pupils did not have the opportunity of learning what would bring them bread and butter. They could not earn money by their education. He said it had given him great pleasure to see the importance given to agricultural interests in the curriculum of the Summer school. Kamehameha school had but recently begun to give attention to this important work. Normal training had been taught there for some time. It would give him great pleasure to see exper- imental departments in each public school where the boys could be given

the practical instruction that would be of the most benefit to them in the future. If they could be taught how to handle their crops, how to handle tools so that they could build their homes, then the public school would be more truly fulfilling its functions.

The policy of the Government had been to encourage small farming, to give the poor man an opportunity. As a result the man of small means had been taking up small fifty-acre or twenty-acre coffee farms. These farmers were Portuguese, Hawaiians, Americans and Russians, but not to his knowledge was there a pupil of the Hawaiian schools. Their interests were not there, their education often made them think that they were above agricultural pursuits and in that sense unfitted them. He hoped that much increased interest along these lines and practical results would come from the Summer school.

Col. Parker won his way into the hearts of his hearers at once by his happy manner of speaking, by his unconventional phraseology. He said that his purpose was to learn as well as to assist the members of the Summer school to learn. He was delighted to visit the islands and observe for himself the civilization of Hawaii. He had come, not to lay down any principle or method, but to see exactly what the teachers here wanted, what they needed, and then to adapt the knowledge which he had to their needs. He said he believed that the common school was the one common means of solving all the problems of all nations. This was true in Hawaii. It was true in the United States. It was not Congress, not Legislatures, not the Supreme Court, which made good citizens, but the silent work of the growing soul in the pupil. He said he was a teacher because it was the one profession which embraced all others. It was the art of all arts, it took in all knowledge.

He said the height of art was simplicity. Among certain classes of people there was a delusion that things learned were, and must be, complex and intricate. There were people who rejected the simple methods because they were simple. There had been method after method, a mixing of ideas, but the progressive educators of today had adopted the simple methods because they brought out the best development. Col. Parker spoke of the mechanical teachers, the imitators, the copyists. He spoke of the traditional teachers who pointed to the past and drew all their conclusions from the methods and forms of history. They had a contempt for advanced methods which were in keeping with the changed conditions and needs of the pupils of today. Teaching, he said, was the worst art and the best profession. He believed in starting the plan of making each school in Hawaii an experimental station, as President Dole had suggested. Were this done it would set an example for the United States to follow.

Col. Parker paid a tribute to the memory of Gen. Armstrong. He said that in working in Honolulu this summer he hoped to, in some small way, pay the great debt which the United States owed to the islands. Hawaii had sent a man of true Christian spirit, devoted in principle to educational work in the noblest sense. Gen. Armstrong had established at Hampton a school whose broadening influence could not be guaged. Its influence would be world wide.

Miss Allen spoke briefly of the manner of her work for the session. Her lectures would be given at 8 o'clock each morning. For three-quarters of an hour she will discuss kindergarten methods, to which teachers and the general public are invited. She said the kindergarten work should be carried into the home and she wished to meet the mothers at this session. From 8:45 to 9:30 she will conduct a practical kindergarten on the platform of the hall. The public is invited to this as well. Miss Allen said that all she asked was that the audience would keep quiet.

Mrs. Parker entered at once into the work of the session. She speaks easily and her English is choice. Her talk yesterday was on the use of the voice. There were many vocal cripples, and yet every mode of education was at the disposal of every human being. There was fundamental error. She had never found, for instance, a teachers' institution where a vowel was properly defined. She spoke then of the use of the voice and gave example of defective vocalization. The voice was merely a transmitter and a bad utterance, in fact everything that prevented a free utterance of the soul interfered with the soul itself. She talked of expression of thought through the body and showed how a shrug of the shoulders, a look, the expression of the face, helped to convey meaning.

Col. Parker lectured on the use of written and spoken language as transmitters. He said the only functions of words were to act upon the conscience to bring a mental image. The whole question of grammar laid in the image. Col. Parker used the blackboard to illustrate his meaning. The afternoon sessions were held in the high school building. This will be the practice throughout the session. The morning lectures by Col. Parker, by Mrs. Parker and by Miss Allen will all be in Progress hall. There will also be a lecture in Progress hall at 7:30 o'clock this evening by Col. Parker on the Child and Nature. The public is invited.

CANNOT GET COAL

Admiral Camara's Fleet Hung Up
at Entrance to Suez Canal.

EGYPT'S GOVERNMENT SAYS NO

The O'Higgins Not Sold to Spain.
No Truth in Brooklyn Yarn.
Fleets United.

WASHINGTON, June 29.—The Senate today adopted an amendment to the deficiency bill appropriating \$145,000 for the purchase of land in Pearl Harbor, Hawaiian Islands, and the dredging of the channel.

CAIRO, Egypt, June 29.—Admiral Camara has asked permission to coal his fleet at Port Said, but the Egyptian Government, believing the Spanish ships have sufficient coal to steam to the nearest port of their own country, has definitely refused his request, in accordance with the neutrality laws.

NEW YORK, June 29.—A special to the Tribune from Port Said says: "Admiral Camara, instead of the 10,000 tons of coal for which he asked on Sunday, now demands 5,500 tons, and as he insisted upon being allowed to take the smaller quantity, after firm and courteous refusals, the governor of Port Said at last formally notified the admiral that, under the circumstances, any coaling whatever of the Spanish fleet in Egyptian waters would be forcibly prevented. The Buenos Ayres, the Colon, the Isla de Panay and the Covadonga have removed into out-of-the-way berths, thereby indicating a long stay here. On the arrival of the transport Isla de Luzon, the troops now on board the Buenos Ayres will be transferred to the Isla de Luzon, so as to enable the Buenos Ayres to act as a cruiser or commerce destroyer."

WASHINGTON, June 29.—The report that the Egyptian Government had finally refused to coal Camara's fleet at Port Said has not yet been officially confirmed, but its accuracy is not questioned. There is still some doubt whether this refusal in itself will operate to prevent a further movement of the Spanish squadron toward the Philippines, as Madrid advises allege a purpose on the part of the Spanish Government to send additional colliers with the expedition to overcome the refusal of the various ports along the way to the Philippines to supply coal. There is a strong impression, however, that the Spanish Government will avail itself of the pretext offered by this refusal to turn the fleet back to Spain.

ONE FLEET NOW.
ON BOARD THE ASSOCIATED PRESS BOAT DAUNTLESS, OFF SANTIAGO, Tuesday, June 28, night, via Port Antonio, Jamaica, June 29, Wednesday morning, by way of Kingston, June 29, 1 p. m.—The flying squadron, hitherto commanded by Commodore Schley, has lost its identity by an order issued today by Rear Admiral Sampson, and it has been merged into the fleet under the Admiral. The order caused considerable surprise on board the Brooklyn, which has been the flagship of the flying squadron, where it was supposed the squadron would remain intact at least until the fall of Santiago. Commodore Schley has been assigned to command the squadron attached to Admiral Sampson's fleet.

ALL IS QUIET IN MANILA.

WASHINGTON, June 29.—The navy department today made public the following cablegram from Admiral Dewey, brought by the McCulloch to Hongkong and though undated, is supposed to have been sent from Cavite, June 23:

"No change in the situation since my telegram of June 17.
"Five German, three British, one French and one Japanese men-of-war are in port. The insurgents are constantly closing in on the city. Aguinaldo, the insurgent leader, with thirteen of his staff, arrived May 19, by my permission, on the Nan Shan. He established himself at Cavite outside

of the arsenal, under the protection of our guns and organized his army.

"The progress of Aguinaldo has been wonderful. He has invariably conducted the war humanely. My relations with him are cordial, but my conferences generally have been only of a personal nature."

NOT AN AMBUSH.

SIBONEY, PROVINCE OF SANTIAGO, Tuesday, (via Kingston, June 29).—It is reported tonight on apparently good authority that the water supply of Santiago has been cut off. If true, the enemy is at our mercy.

Gen. Wheeler today forwarded an official report of the encounter between the Spaniards and Col. Young's and Col. Wood's commands. The officers are highly complimented for their dash and courage.

The General says there is absolutely no warrant for the statement that our troops were ambushed. He says the attack was deliberately planned from knowledge in his possession the night before.

NO TRUTH IN IT.

Before the sailing of the Miowera from Victoria it was learned that there was no truth in the announcement, cabled from Santiago to the Spanish Consul at Kingston, Jamaica, that the Brooklyn had been sunk by a Spanish shell and Commodore Schley and 24 seamen killed.

WAR NOTES.

LONDON, June 28.—Lord Wolseley, commander-in-chief of the British army, has joined the Anglo-American committee, which is aiming to cultivate an entente.

NEW YORK, June 28.—Flint & Co. of this city have received a dispatch from Beech & Co., their agents at Valparaiso, Chile, saying there is no truth in the report that the Chilean armored cruiser Almirante O'Higgins has been sold to the Government of Spain.

LONDON, June 28.—The Paris correspondent of the Morning Post says: "I learn, on the authority of Dr. Betancourt that, with a view of preventing American intervention, Spain will bestow independence upon Porto Rico, subject to certain commercial advantages being reserved for the mother country."

LONDON, June 28.—Captain Aunon's statements in Madrid that he believes Admiral Camara's squadron is now traversing the Suez canal is inconsistent with a dispatch received tonight from Port Said, which says nothing is known there as to the squadron's future movements, implying that it was still in the harbor.

The Cairo correspondent of the "Daily Mail" says: Lord Cromer has stopped a French firm from coaling Admiral Camara's squadron, pending instructions from London.

ST. PETERSBURG, June 28.—In view of the continued improvement of the military position of the United States the newspapers here are changing their tone to friendship for America and now speak with contemptuous pity of Spain, the reason being, it is alleged, the growing fear of a possible Anglo-American alliance. The Russian press, however, does not think such an alliance is probable, and predicts that the victory of the United States over Spain will lead the former into a colonial policy, which will eventually result in a conflict with Great Britain.

MADRID, June 29.—In an interview this afternoon Lieut. Col. Correa, Minister of War, said the Government had no special news from Cuba, but took a favorable view of the situation. He asserted that Admiral Camara's squadron had begun the passage of the Suez canal.

WASHINGTON, June 29.—The Senate has passed a resolution extending the thanks of Congress to Naval Constructor Hobson, but with an amendment including the names of his crew. This is the first time Congress has thus recognized men below the grade of commanding officers.

MADRID, June 29.—It is announced that the Vitoria, the Numancia, the Alfonso XIII and the Pepanto, all armored cruisers, are ready to form the third squadron. The armored cruiser Cardinal Cisneros and the torpedo gunboat Dona Maria de Molina, with several auxiliary cruisers and torpedo boats that are to be included, will be ready shortly.

MADRID, June 29.—6:30 p. m.—The cruiser Antonio Lopez, while trying to

enter the river San Juan, near San Juan de Porto Rico, with a cargo of provisions and war material, was detected by two American warships, but escaped by swiftly changing her course. Her captain determined to land his cargo, and headed for shore at Salinao.

The shock of grounding exploded the boiler. It is not known whether there was any loss of life. The Spanish gunboats Concha and Isabella went to the assistance of the Antonio Lopez, whereupon the Americans withdrew and the Antonio Lopez landed her cargo.

WASHINGTON, June 29.—It was announced at the war department that by their reports 3,000 soldiers should be leaving Tampa today to join Shafter. They will be three or four days on the voyage, and it is probable that it is this force that General Shafter refers to as likely to arrive too late for his action.

WASHINGTON, June 29.—Secretary Long has received word from Commodore Remy at Key West, that the flagship Newark, with Commodore Watson on board, has been in collision with the Dolphin. The Newark was uninjured, but the Dolphin sustained considerable damage. She is now on her way north to dry dock. No details are obtainable.

WASHINGTON, June 29.—The War Department has posted the following bulletin:

Playa Del Este, June 29.
Russel A. Alger, Secretary of War: The graves of the dead are marked so there will be no mistake in identification.

The health of the command is reported by the surgeons as remarkable, outside of the wounded. There are less than 150 sick men. So far no wounded have died, and but two men have died of disease since leaving the United States.

(Signed.) SHAFER, Major Gen.

LONDON, June 28.—The Star today prints a story from a foreign correspondent to the effect that a part of Admiral Camara's fleet left him off Algeiras, near Gibraltar, and is now on its way to Porto Rico "to join the squadron of torpedo boats which Captain Villamil has had concealed near there for three weeks past."

The correspondent adds: "This fleet will attack Admiral Sampson in the rear, while Admiral Cervera attempts a sortie simultaneously with the commencement of the land battle. Thus Admiral Sampson will be too preoccupied to help General Shafter."

It is reported from Madrid that a part of Admiral Camara's fleet left him near Gibraltar and is now on its way to Porto Rico, "where it will attack Admiral Sampson in the rear." If it does it will learn that an American rear admiral is so called because of his ability to fight with his hind feet.—Post-Intelligence.

STOCK MARKET.

How the Leading Securities Opened With the Week.

The following are selling prices and "asked" figures on leading securities as compiled yesterday for the Advertiser:

	Sold.	Asked.

The Electric Line.

In a few days the directors of the temporary organization of the Honolulu Rapid Transit Company will meet and wind up the preliminary business. These transactions will carry the enterprise up to the point of incorporation for the business authorized by the new charter.

You may hunt the world over and you will not find another medicine equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. It is pleasant, safe and reliable. For sale by all druggists and dealers. Benson, Smith & Co. agents for H. I.

A SUMMER SCHOOL

Term For 1898 Opens on Monday Morning.

A COURSE OF LECTURES

General Sessions to Be Held in the New Progress Hall—Specialists For Subjects.

(From Saturday's Daily.)

The Summer School of 1898 will begin next Monday morning at 9 o'clock. All the general sessions will be held in Progress Hall (corner Fort and Beretania streets). This hall, it is thought, will furnish ample accommodation for all who will wish to attend these sessions, and it is a pleasant, well ventilated room. All who are interested in the lines of work to be pursued are cordially invited to attend. The work of Col. Parker and Mrs. Parker has been fully announced in these columns, so it will be enough to say now that it will be a practical presentation of the problems of every day school room work in the elementary schools. It is hoped that many not now actually engaged in the work of teaching who take an interest in these problems, will attend the lessons of these two well known teachers.

Those interested in the kindergarten work in Honolulu will be pleased and instructed by Miss Allen's work in that line.

The present importance of diversified agriculture in this country will see promise in the following course in agriculture, Summer school of 1898:

Core:—The planting and cultivation of trees on school premises.

1. Motive in tree-planting. The value of tree-planting to the school and to the community. The scope of this course, and the scope and method of school work in agriculture.—Townsend.

2. Varieties of trees suited to the various localities, with their characteristics.—Townsend.

3. Physical conditions and properties of soil. Kinds of soil.—Townsend.

4. Molar and molecular forces; cohesion, adhesion, capillary attraction. Relation of these to the cultivation of the soil.—Townsend.

5. Evaporation. Diffusion. Relation of these to cultivation of the soil.—Townsend.

6. I. Propagation from seed. (a) Seed boxes. (b) Soil. (c) Sowing and care. II. Propagation by cuttings. Propagation by layers. Propagation by grafting. Propagation by budding.

7. Transplanting. (a) To boxes. (b) To pots. (c) To vases and tubs. (d) To open ground.—Clark.

8. Physical Properties of Soils.—Crawley.

9. Chemical Properties of Soils.—Crawley.

10. Hawaiian Soils.—Crawley.

11. Irrigation and the properties of irrigation waters.—Crawley.

12. General Principles of Fertilization.—Crawley.

13. Fertilization of Hawaiian Soils.—Crawley.

14. Experimental Work in Agriculture.—Sedgewick.

15. Practical Questions on Execution of these Plans.—Townsend.

Mr. Crawford's lectures will be given in the evenings so that they may be attended by those not able to attend the regular daily sessions. If those desiring to take this work so wish, all of it will be given in the evenings.

Mr. M. M. Scott will give an introductory course in English literature and a study of "The Merchant of Venice."

Mrs. Tucker will take steps to organize the work of the teachers of singing by the Tonic Sol Fa method under the American or English Tonic Sol Fa college, should teachers so desire. She has also a set of songs suitable for little children which she will give to those desiring them.

Mr. Townsend will give an outline course in Theory and Practice of Teaching, setting forth some matters to be studied up by those desiring to be posted on this subject.

HONORS FOR ARTHUR.

A Honolulu Young Man Who Shines at Yale.

Another island boy has been distinguishing himself at Yale. This time it is Arthur A. Wilder who went back a year or so ago to take the post graduate course in the law department. Mr. Wilder is immensely popular here, where he was, up to the time of leaving for college, stenographer and student with Attorney W. A. Kinney. The young man was also coxswain for all winning crews of the Myrtle Boat club.

Mr. Wilder has taken high honors at Yale. He and one other graduate get all the class glory, making a close division of the most coveted trophies. Mr. Wilder received his Master of Laws "cum laude." The young gentleman is now L.L.B., and will get a rousing reception when he returns to Honolulu.

Alameda's Movements.

In regard to the coming of the Oceanic Company's steamship Alameda from San Francisco due at this port July 20th, reports are conflicting.

A TEACHER OF TEACHERS.

Col. Francis W. Parker, principal of the Cook County Normal School, Chicago, Ill., is here with Mrs. Parker. Both will be in active service with the Col. Parker is an instructor of world number of standard text and reference books. Mrs. Parker is also a writer

of the Cook County Normal School. Both will be in active service with the Col. Parker is an instructor of world number of standard text and reference books. Mrs. Parker is also a writer

According to published statements the Alameda will not be seized by the United States Government on account of the great trouble it will cause the Colonies by taking off a through mail steamer. But advice to merchants here convey the news that just before the sailing of the Newport it was positively stated in San Francisco that the Alameda would go to Manila. As the agency here, however, received no word to this effect it is probably incorrect. It would certainly be a disaster to the mercantile community of Honolulu and would cause them to ship all their goods by sailing vessels. The Transit, Irmgard, Martha Davis, Andrew Welch and W. G. Irwin were all loading for Honolulu at the departure of the last mail.

ENDEAVOR CONVENTION.

It is Now Holding Its Meeting in Nashville.

The Seventeenth International Christian Endeavor Convention is now in session at Nashville, a city made famous for many a stirring event in the history of the Civil War. While this convention is held on a famous battle-field, it is a convention of peace, whose dominant note is fraternal union. At the time, when soldiers from the North and the South are fighting side by side, led by Generals who fought in the Confederate as well as Union armies, it is indeed fitting that this exhibition of brotherly fellowship should be made in this Southern city. The practical character of the topics to be discussed and such eloquent speakers as Drs. S. F. Johnson, J. W. Chapman, H. A. Johnston, D. J. Burrell, F. W. Tompkins, etc., all promise to make this the greatest convention of Christian Workers ever held in the South.

Let us pray for this Convention, that a spirit of loyalty and devotion to "Christ and the church" may be awakened in the hearts of all the young people throughout the world, whether in attendance at the convention or not.

AN ENDEAVORER.

COON IS GONE.

Slips Away Quietly on the Gaelic. Was Under \$1,000 Bond.

W. J. Coon, whose name has been in the papers somewhat lately, left for the States aboard the S. S. Gaelic at 1:20 this morning. He took some luggage from the Union Express Co.'s office at 11, jumped into a hack and a quarter of an hour later was aboard the ship at the Pacific Mail dock. Coon walked up the gang plank in the full glare of the electric light.

This departed was arrested a few days ago with several thousand dollars worth of opium in possession. In District Court he was fined \$250 and sentenced to spend three months in prison. An appeal was taken and Mr. Coon allowed to go at large on a bond of \$1,000. Application was made to Judge Stanley, of the Circuit Court, for reduction of bond and was refused. Coon sold his express business yesterday.

Coon had been in Hawaii about five years. He was sober and industrious and bore an excellent character till caught red handed in an opium transaction. The pursuer of the ship was notified by a customs man that Coon was on the Gaelic and a customs officer who saw Coon go aboard tried to notify the police over the telephone, but was unable to do so.

A Cathedral Wedding.

Miss Eckardt, eldest daughter of the purveyor of the Queen's Hospital, was married at the Roman Catholic Cathedral yesterday morning at 7 o'clock to J. P. Lino, Jr., of Kohala. A number of friends were in attendance, besides

members of the families of both the bride and groom. In the afternoon Mr. and Mrs. Lino left for their future home, taking the steamer W. G. Hall. They were accompanied by the mother and sister of the bride and relatives of the groom.

New Waterhouse Store.

Carpenters have been set to work building a big warehouse in rear of the Waverley Block to be used by the J. T. Waterhouse firm. It will be a large structure. A landing will connect it with the main building. The carpenters are also at work upon an electric elevator from the center room of the building.

Up It Goes.

If you did not take our advice and lay in a good supply of Flour and Feed before the last advance, do it now, as there is every prospect of higher prices. The two most powerful agencies are at work to make the advance:

DROUTH AND WAR.

We try to protect our customers but are compelled to follow the market as our stocks become exhausted.

WE CARRY ONLY

THE BEST.

When you want the best Hay, Feed or Grain at Right Prices order from

CALIFORNIA FEED Co.

TELEPHONE 121.

DR. J. COLLIS BROWNE'S Chlorodyne Original and Only Genuine. Coughs, Colds, Asthma, Bronchitis.

Dr. J. Collis Browne's Chlorodyne. Vice-Chancellor SIR W. PAGE WOOD stated publicly in court that DR. J. COLLIS BROWNE'S was undoubtedly the INVENTOR OF CHLOROODYNE, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to. See The Times, July 12, 1894.

Dr. J. Collis Browne's Chlorodyne. Is a liquid medicine which cures PAIN OF EVERY KIND, affords a calm, refreshing sleep WITHOUT HEAD-ACHE, and INVIGORATES the nervous system when exhausted. Is the Great Specific for Cholera, Dysentery, Diarrhoea.

The General Board of Health, London, reports that it ACTS AS A CHARM; one dose generally sufficient.

Dr. Gibbon, Army Medical Staff, Calcutta, states: "Two doses completely cured me of diarrhoea."

Dr. J. Collis Browne's Chlorodyne Is the TRUE PALLIATIVE in Neuralgia, Cough, Cancer, Toothache, Rheumatism.

Dr. J. Collis Browne's Chlorodyne Rapidly cures short attacks of Epilepsy, Spasms, Colic, Palpitation, Hysteria.

IMPORTANT CAUTION.—The name of this remedy has given rise to many Unscrupulous Imitations.

N.B.—Every Bottle of Genuine Chlorodyne bears on the Government Stamp the name of the inventor, DR. J. COLLIS BROWNE, sold in bottles 1s. 1/2d., 2s. 6d. and 4s. 6d., by all chemists.

Sole Manufacturer, J. T. DAVENPORT.

Bargain in Shoes.

We hear the expression used constantly. So much so that in nine cases out of ten it really has no significance in connection with facts.

A bargain in shoes represents standard value, at the right price and at the right time.

The cheapest is not always the best neither is the best always the cheapest. Buy a good article and you will get satisfactory wear out of it in the long run. Buy a cheap article and it will keep you on the jump continually to duplicate, then you might buy shoes on this basis every week in the year and never get your money's worth. Turn over a new leaf and buy an honest shoe at an honest price. This is the kind of values we offer you.

CLARKE'S WORLD-FAMED

Blood Mixture

THE GREAT BLOOD PURIFIER & RESTORER

For cleansing and clearing the blood from all impurities, it cannot be too highly recommended.

For Scrofula, Scurvy, Eczema, Pimples, Skin and Blood Diseases, and Sores of all kinds, its effects are marvellous.

It Cures Old Sores. Cures Ulcerated Sores on the Neck. Cures Ulcerated Sores on the Face. Cures Scaly Sores. Cures Cancerous Ulcers. Cures Blood and Skin Diseases. Cures Glandular Swellings. Clears the Blood from all Impure Matter. From whatever cause arising.

As this mixture is pleasant to the taste, and warranted free from anything injurious to the most delicate constitution of either sex, the Proprietors solicit sufferers to give it a trial to test its value.

THOUSANDS OF TESTIMONIALS From All Parts of the World. Sold in Bottles 2s. 6d., and in cases containing six times the quantity, 11s. each—sufficient to effect a permanent cure in the great majority of long-standing cases. BY ALL CHEMISTS and PATENT MEDICINE VENDORS THROUGHOUT THE WORLD. Proprietors, THE LANCET AND MIDLAND COUNTIES DYE COMPANY, LINCOLN, ENGLAND.

Caution.—Ask for Clarke's Blood Mixture, and beware of worthless imitations or substitutes.

A SISAL GROWER MAETO FOR LIFE

Visit of a Man Who Knows Fibre Business.

Chas. Wilde From the West Indies—Bound for Fiji—Said a Sisal Enterprise Would Succeed Here.

During the busy busy times of last week there was in town for a couple of days a gentleman who had the notion of engaging in an enterprise here and who would have been a most valuable acquisition. He spent most of his time with A. H. Turner, of the new fibre company that is undertaking to go into business in Ewa district and met B. F. Dillingham and a few other prominent men. The visitor was Chas. Wilde, who has for a number of years been in the fibre business in the West Indies and who has gone on to Fiji, where he intends to grow sisal and ship the product to the market. Mr. Wilde had no idea that there was a good field here for him, but had he been offered sufficient inducement he would have remained. He goes to a definite arrangement in Fiji. Mr. Turner will be in correspondence with Mr. Wilde and the Englishman may come back here later.

Sisal, perhaps the best of all fibre plants, made itself at home in Hawaii from its first introduction some years ago. It has grown well wherever planted and the analyses and small reductions have been most satisfactory. After months of effort and in the face of many and heavy discouragements, Mr. Turner lately completed the organization of a good company in Honolulu. There has been, and still is some "hitch" about the land, but it is hoped to soon straighten out this matter. A statement now made is that one of the island corporations entirely responsible will go ahead with the cultivation of sisal very soon on its own account.

Mr. Wilde said that Mr. Turner had been altogether too conservative in presenting the project to the gentlemen who have taken stock in the local company. Mr. Turner figured on 1,000 pounds of fibre to the acre. Mr. Wilde, on looking over carefully both the plants and the ground had no hesitation in declaring that there could be produced here a yield of from 1,500 to 2,500 pounds of fibre to the acre. When Mr. Turner entered on the work of interesting Honolulu capital the price of the fibre was 3½ cents a pound. The quotation now is from 10½ to 11 cents a pound and on account of this advance those in business have made enormous profits. It is the conviction that the price will remain good for many years, even after the war ends, that has caused Mr. Wilde to eagerly hasten to Fiji to get into business for himself. He says that he can sell to fine advantage once his crop is in the ground.

Mr. Wilde is a practical man of experience of many years. He understands all about the business, from the planting to the marketing. The machinery for the treatment of the plants, the removal of the fibre from the 90 per cent of trash, is manufactured in the United States. There comes all the time from India the complaint that machinery for the treatment of the fibre plants grown there has not yet been invented. There can be no question whatever concerning the American machinery used on sisal in the West Indies. It is doing the work today and has been doing it for some time.

Amongst the products of the fibre taken to the factory are rope, brushes, mats, carpets, etc. Mr. Turner is now of the belief that after the visit of Mr. Wilde something in the line of establishing here a new and important industry can be carried out.

PAST CHANCELLORS.

A Lunch at the Hotel in Honor of a Visitor.

Through the efforts of Z. K. Myers, a lunch was given at the Hawaiian hotel at noon yesterday in honor of Chas. H. Burritt, who is with the Wyoming battalion. It was a Pythian affair and these Past Chancellors were present: J. F. Eckhardt, Deputy Supreme Chancellor, Chas. H. Burritt, Past Grand Chancellor, Henry Smith, John D. Holt, Geo. L. Dail, J. A. Mehrrens, H. E. Wally, A. V. Gear, Capt. W. C. Wilder, Jr., Capt. C. W. Zeigler, Auditor H. Laws, Past Deputy Supreme Chancellor, Capt. A. Gartenberg, Z. K. Myers, Ed Towse, David Dayton, Past Deputy Supreme Chancellor, John Neill, C. B. Gray, A. E. Murphy, Lieut. Chance of the Minnesota Regiment, B. Bergersen, C. M. V. Forster. The addresses were made by Messrs. Burritt, Dayton, Laws and Myers. All spoke well, but the principal speech was by Chas. H. Burritt, who was at his best as always the case when he is called upon at a Pythian gathering. He furnished much information that will be of value to the order in the Islands.

Mr. C. L. Hasbrouck, a druggist at Mendon, Mich., says all of the good testimonials that have been published by the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy could be duplicated in that town. For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

Marriage Ceremony Under a Floral Horseshoe.

Q. H. Berry and Miss Jennie Kammerer—A Home Prettily Decorated—Wedding Supper.

It was under a large floral horseshoe that Q. H. Berry and Miss Jennie Kammerer were last evening made man and wife. The American Episcopal church service was used by choice of the bride and the ceremony was performed by the Rev. Alex. Mackintosh. This was at the home of Mr. and Mrs. T. P. Harris in Anapuni, Makiki, at 8 o'clock last evening. The whole of the large house had been beautifully decorated with flowers and greens. The room dressings were particularly tasteful, while the display on the wide lanais was very attractive. The handsome bride was in white satin and carried a bunch of white carnations. The bridesmaid was Miss Ida Horner and the maid of honor was Miss Ethel Vernon, sister of the bride. Dr. C. T. Rodgers gave the bride away in his own graceful style. Ed Towse was best man and J. Q. Wood was groomsman. The two elements of the marriage party marched from different directions to positions in the alcove over which hung the horseshoe of white and green, with streamers of ribbons and festoons of greens. There were present quite a number of the friends of the young couple. After the ceremony had been performed there were refreshments at tables on the lanais and music by the native orchestra which had played the wedding march. Congratulations were showered on Mr. and Mrs. Berry. Mr. Berry is well known in the business community as a handler of real estate and manager of the Hawaiian Bradstreet's. The bride, who has been a school teacher, has been making friends here ever since her advent and has the best wishes of the best people on several Islands. The bridal bouquet was caught jointly by Miss Ida Horner and her sister. When Mr. and Mrs. Berry left the Harris house they did so in a storm of rice and old shoes. Their home will be with Mr. and Mrs. Dodge on Emma street.

CLARK—OSMOND.

A Pretty Wedding at St. Andrew's Cathedral Saturday.

A very pretty wedding took place at St. Andrew's Cathedral, Saturday evening in the presence of a large congregation, when Albion F. Clark and Miss Ellen R. Osmond were made man and wife. The ceremony was performed by the Rev. Alex. Mackintosh, during which soft music was played on the organ. The bride who looked very pretty in a bridal costume of white with veil, was given away by Dr. George Herbert. She was attended by Miss Charlotte Erickson as bridesmaid. Chas. S. Crane was best man, while Geo. Clark and E. Legros acted as ushers. Wray Taylor presided at the organ. After the register had been signed the newly married couple drove to their new home on King street where a reception was held, quite a number of friends being present. The bride has made many friends during her residence here, coming out a few years ago as a trained nurse. The groom, well known as "Doc" is bookkeeper for Hustace & Co. and bears an excellent reputation. Saturday was the anniversary of his birthday, making an interesting double event. Many handsome presents were received by the young couple who start out in life together under the most favorable circumstances.

There not being a quorum present the meeting of the Queen's hospital called for Saturday morning, was not held.

The Class of Furniture we keep

Would lead you to suppose we ask big prices, but such is far from the truth. Although all goods that come into our establishment must pass the closest scrutiny and must give a good account of themselves both from the standpoint of quality and art, our prices are lower than are usually asked for much inferior goods. We give you the benefit of our good judgment and taste in buying and thorough knowledge of the business.

Excuse us for insisting

That you want one of our Chamber Suites, or one of our

WIRE MATTRESSES,

The Cleanest and Easiest Kept.

The best furniture that can be made—and the prices are so low that if you knew the goodness you'd be a quick buyer.

The sooner you come the better the choice, for they are all single styles.

Don't overlook our repair and upholstering department — looks like new after passing through our hands.

J. HOPP & CO.

Leading Furniture Dealers.

KING & BETHEL STS.

GET IT AT
WATERHOUSE'S.

Throw the responsibility on us—

That's what our patrons can do. Just understand that every purchase made here is with the distinct understanding that it must give satisfaction. We want to know if it doesn't.

A lady told us the other day she got the idea ours was so exclusive a stock that the prices would be so high she couldn't trade here. That's wrong. We have exclusive styles—yes! But in point of fact our prices are LOWER than many—and as low as any store that carries reliable goods. It's the very cheap that is the very expensive.

We are always willing to exchange or refund money on goods bought of us which are not entirely satisfactory, when returned to us in good condition within a reasonable time after purchase, but with the distinct understanding that all such goods returned will have all charges paid.

When sending for samples, or for information, write plainly your name and postoffice. After receiving samples, and they prove satisfactory, order quickly, and if possible make two or three selections, marking them in the order of your choice. This will prevent the delay required in sending new samples which so often happens when goods to match the sample required are sold.

It sometimes unavoidably happens that goods ordered are out of stock, and in such cases we take the liberty of substituting what, in our judgment, is equally desirable, both in quality and price. If not satisfactory in this case, please return at our expense. In our Grocery, Crockery and Hardware departments our stock is thoroughly complete and the range of prices is all that can be desired.

NO MORE LEGISLATION.

The Senate and House of Representatives, after playing on the public stage for one hundred and twenty days come to the foot lights, make their farewell bows and close their "last night."

There is some rich food for reflection in their acting. Impatient men have often spoken harshly of their methods of business, and their lack of harmony with the Cabinet. But on the whole they have been a fair sample of representative bodies, without parties behind them, and sorely in need of a political "boss." As they had, outside of the question of annexation, no common bond, or creed, or political music, to which they could keep step, they naturally got somewhat confused at times, and took "headers" at each other. Some allowance also must be made for the influence of the tropical climate upon their foreign natures.

There has been no charge, or suggestion of any dishonesty against any member, and no doubt, each one in his own way has sought the public good, subject only to such drawbacks of inherited cussedness which is the lot of all. There has been some "log-rolling," but the logs have been comparatively small.

As the majority of the members were fresh hands in driving the legislative chariot, they naturally got off the course at times, ran up against trees and stumps, and tried to climb some dangerous embankments, but before the session was through came down to a safe jog.

A fresh representative usually believes that he has been especially selected as a telephone wire to convey the voice of the people, which is the voice of God, to the ear of the Executive officials. As time goes on, and he discovers that the divinity of the people's voice is more of a legend than a truth, he "disconnects" the wire and becomes weary of transmitting the "voice of God" in this manner, and proceeds to emphasize his own voice instead.

The Executive, in spite of much unorganized opposition, has carried through nearly all of its own measures. Several experienced members of the Cabinet are old leaders in keeping fractious members in line.

The late Jas. I. Dowsett once said that in shipping droves of cattle from a certain dock, a space of water had to be crossed lying between the shore and the dock. He accordingly trained two steers as "leaders," and on the dock placed several watermelons which were a powerful attraction to the trained steers. As they were mixed with the drove, they immediately entered the water, on seeing the melons, and were followed by the drove to the wharf, and from that they were easily shipped.

The Ministerial steers quietly joined the legislative drove, and gently led them to the Statute dock on which were lying the "appropriation watermelons." Experienced leaders, in both the animal and human world are valuable agencies in accomplishing results.

There are a good many little political lessons to be learned in the transactions of this, probably, last Legislature of the Hawaiian Republic, and it is our duty from time to time to enforce them.

THE HONOLULU LIBRARY.

There is an attack upon the management of the Honolulu Library, in one of the evening papers. The charge is that books that are wanted are not to be found there. The author of the attacks calls for more magazines and popular literature.

Attacks of this character are always made on every public library. A reader wishes a certain book and cannot get it. Then he makes the usual charge of bad management and lack of enterprise, etc.

The value of a criticism on the management of a public library largely depends upon the standing of the critic. A hod carrier, or a jockey may call for books on bricks or horses, and denounce the best historical library in existence, if such books are not to be found.

We say, on the general consensus of the opinions of those who have had to do with libraries in the large cities, that the Honolulu library is admirably conducted. The selection of books is made with much care, and with the purpose of making it, under the circumstances, the very best all round library.

The public is singularly fortunate in having an enthusiastic librarian, who shows with her associates enterprise in keeping this literature abreast of the times.

The criticism of the kind that appears in the evening paper is like that

of the California cowboy, who visited New York, and entered Delmonico's. "I want a tamale," he said to the waiter. "We have no tamales," he replied. "Great Scott!" said the cowboy, "and you call this a restaurant do you?"

RACE INSTINCTS AND EDUCATION.

Colonel Parker and Mrs. Parker require no introduction to this community. Those who are directly engaged in the education of youth on these Islands know of them too well to require any comments from us on the character of their splendid work in the United States. We, therefore, say only this that it is fortunate for us, and most creditable to the enterprising spirit of our officials in the department of Public Instruction, that their services have been secured for the Summer School.

"Our present force," says the Minister of Public Instruction, Mr. Cooper, in his report "is composed of sixty-two teachers holding foreign certificates, ninety-six holding first-class certificates including normal certificates, and fifty-nine teachers holding second class certificates, twenty-two holding third class certificates, and fifty teachers without certificates."

Of pupils there are:

Hawaiian	5,330
Part Hawaiian	2,479
American	484
British	280
German	302
Portuguese	3,815
Scandinavian	106
French	2
Japanese	560
Chinese	1,078
Sou. Sea Islanders	10
Other foreigners	76
Total	14,522

There are, therefore, only 1,184 pupils of the Anglo-Saxon race on the Islands, in the public schools, while there are 13,338 of the Hawaiian, Portuguese, Chinese, Japanese and other races.

The theory of instruction is based largely, if not wholly on Anglo-Saxon methods and usages, many of them traditional only, and existing by virtue of Anglo-Saxon racial habit of thought.

We are confronted here with the fact that over ninety per cent. of the children are under the powerful influence of racial ideas that are not Anglo-Saxon. To what extent these racial instincts, and domestic environments control the development and character of these pupils we do not know. To what extent the Anglo-Saxon theory and practice of educational instruction will modify or remove these racial instincts or habits, we do not know.

It is a subject that has attracted little general attention here, although some thoughtful and observing teachers have gathered valuable data bearing on it.

The Lieutenant-Governor of Bengal, a ruler over 60,000,000 of people said, some years ago, that the British in undertaking to educate the people of India, had made the error of assuming that the English methods of instruction were sufficient for that purpose. He was, he said, of the opinion that the first step in the civilization of a race, through an exterior influence, was to study and master the native racial habit of thought in all things. This knowledge would reveal the weakness and the strength of the native character, and indicate the special kinds of education needed.

We believe that this view should be taken, in proposing and creating the most valuable system of education for the large proportion of children here who are alien to the Anglo-Saxon race, but are now under its influences. Unless there are sufficient reasons for not doing it, a discussion of the subject in the Summer School might be of inestimable value.

COL PARKER'S LECTURES.

The opportunity of learning valuable truths from Col. and Mrs. Parker, should be eagerly seized by every father, and especially by every mother in this community. It is a rare occasion. The best thought of men and women in civilized lands, of Germany, of England and of America, on the subject of child education has been gathered up with infinite labor and can now be had here simply for the asking.

Rev. Henry Ward Beecher said that every mother sitting by the cradle of her infant was a Columbus, looking beyond the cradle towards the dark and wind swept ocean of life, earnestly speculating on what might lie beyond the horizon, and behind the clouds, when her infant, as all others have done, starts upon his own voyages of discovery for fortune and place which lie beyond the present sight.

These teachers, Harris, Dewey, Parker, and their devoted disciples now come to these waiting and anxious mothers, and place before them

charts, marked with the best courses and soundings, and direct them how to equip the growing infants for these momentous voyages of life.

The agony of the thinking mother, today is, in contemplating the awful waste of life and hope. Prayer, devotion, self sacrifice in a thousand cases, does not strip from the growing child the swaddling clothes of narrow and hurtful traditions. One generation is only a little in advance of the preceding generation. The strange and mysterious relation of body and mind, the subtle relation between the natural world and the spiritual or intellectual world have been little understood.

It is the mission of these teachers to present the wonderful facts that abound in the early lives of the young, facts that strangely enough, have been little understood.

The hour is at hand, when every mother, rich or poor, who falls to know the best methods of education, "sins against the light," and incurs a fearful responsibility. The blunders of ignorance deprive love, and devotion and self sacrifice of their value.

The future of the race lies not in wealth. That is of little consequence. It lies in the growth of character. Otherwise, history will only repeat itself, and the race will end in decline. Men cannot elevate a race, or a nation. They have tried it for thousands of years and have failed. The women must, and can do it. They must pass over the borders of the land where superficial knowledge, and the worthless traditions of infant education exist, and into the land of exact, wide and useful knowledge.

Nor, indeed can teachers accomplish any better results, unless the fathers, and especially the mothers are behind them, urging and sustaining them to the highest work.

When Mrs. Dr. Lozier of New York, in 1835, taught physiology in her seminary for young women, the parents withdrew their girls, because they believed such instruction was "vulgar." The teacher must reflect the intelligence of the parents in a large measure. Therefore if education of children shall advance, the parents must advance too in their own education.

AN EDUCATED ARMY.

Some of the American papers ask why it is that in spite of the enthusiasm for the war, only 10,000 men have enlisted in the regular army, when there is a pressing need of 35,000, and at a time too when the call for volunteers is promptly met.

The failure to respond is not due to any lack of patriotism on the part of the young men. They prefer, however, to enlist with their own associates and companions and not with strangers. They find comfort, and strength in the hardships of war, in the protection and friendship of their neighbors. This motive is quite sufficient to fill the volunteer force, at the expense of the regulars.

Nor, at the present time, is the regular army the proper place for young men with education, or ambition to rise in the world. It is a refuge for the disappointed, the unbalanced, the drunkard, and the ne'er do well. Many young men with fine parts enter it, when desperate, and so do many young Europeans who are willing to serve for little pay.

The late General Terry proposed an admirable scheme of organization, which would, in due time, have made the regular army not only a formidable military power, but a most efficient school of education for the young. He proposed well constructed encampments in each State, where young men, unable to obtain higher education, might enlist for five years. Not only were they to obtain the very best drill of the soldier, so as to constitute a regular army ready to take the field at a moment's notice, but they were to receive a thorough education besides. They would leave the army with excellent mental training. This system, of course, would make the officers school masters, as well as soldiers. The plan was, however, in advance of the times, and has not yet been adopted. A scheme of keeping a standing army of 100,000 equipped and ready, and at the same time, counteracting the evil influences of the army life by making it a standing army of educated young men, to be succeeded by other standing armies of the same kind, was above the heads of the people. In due time, it will be adopted. The man to execute this plan has not yet appeared. But he will come.

USING GOOD NAMES.

It appears that the opium smugglers have used the names of respectable mercantile houses, including several "missionary" firms, in covering their illicit transactions. This is by no means an uncommon expedient in smuggling. In a good name is great riches, and so the smugglers borrow it.

The recent case of illicit traffic recalls the old anecdote of the great orator Sheridan, who was given to excessive drinking. A policeman

arrested him in the street, for drunkenness, and asked him his name. Sheridan staid himself for a moment and replied: "My name is Bishop Wilberforce."

EDWIN A. JONES.

The services, yesterday, over one-born on this soil, a descendant of one of those whose "feet were beautiful on the mountains," are memorable in this that they were over the remains of one stricken down in the very prime of life.

He was at that fortunate age, when men live yet in hope, and have not crossed the border to the domain where they live only in memory of the past. He was at the creative age, and his work lay before him. It was at the age when the intellect begins to be hardened by the fire of experience, and takes profit out of the wrecks of the earlier mistakes, and finds the road to wisdom by the light of mature reflection.

Perhaps his intimate associates and friends, those also whose blood was in his veins, may truthfully say of him, with Matthew Henry: "The flower of youth never appears more beautiful than when it bends towards the Sun of Righteousness."

The grief of his parents, the sorrow of his father recalls those words of Edmund Burke, spoken in the British House of Parliament, a hundred years ago, on the sudden death of his son, and which are a monument of pathetic eloquence, and reflect the feeling of every father, when he stands by the grave of one who should not precede, but follow him in the order of nature.

These are the words: "He would have supplied every deficiency, and symmetrized every disproportion. He had in himself a living salient spring of generous and manly action."

"But a Disposer whose power we are little able to resist, and whose wisdom it behooves us not to dispute, has ordained it in another manner, and (whatever my querulous weakness might suggest) a far better. The storm has gone over me, and I lie like one of those old oaks which the late hurricane has scattered about me. I am, stripped of all my honors; I am torn up by the roots, and lie prostrate on the earth. There, and prostrate there, I most unfeignedly recognize the Divine Justice, and in some degree submit to it."

In the rapid development, in the near future, of the social and commercial interests of these Islands, the young man who was buried yesterday, gave promise of taking a valuable and honorable part. Others will do his task. He passes on to a wider field of action and is today, with those who now share the hidden wealth of immortality.

AMERICAN REGULARS.

We will inform the Star that Major General Miles, the General of highest rank in the American army enlisted as a soldier in the regular army. Abraham Lincoln, moreover, never had the advantage of attending an Academy, nor even, we believe, a common school. These instances of rare promotion and rise are extraordinary.

Any young man, sound physically, with a bad history, and intemperate habits makes an excellent soldier when brought under strict discipline, and kept from the habitual use of liquor. "Tommy Atkins," the British soldier, is as brave a man as lives, and he has proved it many times on many battle fields, but the universal testimony from the Royal Commissions to Kipling's ballads does not give him credit for much personal worth.

What the Advertiser has said about the American regulars is based on the official reports made to Congress on the subject by army officers. When an American accepts \$13 a month, with little hope of a rise in the regular army, in times of peace, he proclaims himself to be unequal to the task of earning decent wages, and ceases to show the ambition of the race. But he makes a good soldier for all that. The volunteer is a different man.

Rudyard Kipling, in his poem "The Eathen," comments on the want of discipline shown by the East Indian tribes that attack the British, and the reason why they are defeated. The comments apply with much force to the badly equipped Spaniards, and the result will be the same.

"The 'eathen in 'is blindness bows down to wood an' stone, 'E don't obey no' orders unless they is 'is own,' 'E keeps 'is side arms awful,' 'e leaves 'em all about, And then comes up the regiment an' pokes the 'eathen out."

To Move the Moau.

George Kent and W. R. Johnson have gone to Kaunakakai to repair the steam launch Moau and take her to Hilo. They took over pumps, tools and other appliances to put her in first class shape. The Moau will be used at Hilo by Hackfeld & Co.

FIVE BACK AGAIN IT IS BUT FOLLY

Quintette of Transports Return to the Offing.

S. S. INDIANA'S BOILER PILIKIA

Fleet May Be Able to Sail This Afternoon—City of Newport Has Gone On For Manila.

The scenes at the departure of the fleet Friday forenoon were duplicates of similar demonstrations before. Great crowds were at the wharves and there was much music and cheering.

It was some time after 4 o'clock Friday afternoon that the City of Para and Morgan City were seen by the signal station returning from off Barber's Point. Following was the Valencia, and bringing up the rear was the Ohio seemingly towing the Indiana in distress. At this time there was steam up in the Indiana, however it was not until the fleet was off the channel at anchorage that the Indiana blew off all steam.

The tug which had been made ready as soon as it was heard that the troop ships were returning, left for the fleet at half past five o'clock having on board United States Consul General Haywood and a reporter from the Advertiser. Arriving at the Indiana they took on board Commander Morle of that vessel, Chief Engineer Boyling and Captain Sawtelle, U. S. A. acting quartermaster of General MacArthur's staff. The Eleu then hastened back in the harbor up to the nearest landing to the Iron Works where these officers landed. Soon the machinists were busy fashioning the iron into the shapes required. The six screws which were loose run between the combustion chamber and the bulkhead. The plan to repair these is to cut the threads on the ends of the bolts down and make new nuts of smaller dimensions. For instance six of them will be cut from one and a half inches to one and three-eighths and six from one and three-quarter inches to one and five-eighths. To do this new dies must be turned of hardened steel for the bolts and taps or plugs for the nuts. The boilermakers will then take charge and with a specially constructed wrench go on board and complete the job. Of course the boiler is cold and all the water out. Then water taken up by Hackfeld's steam scow will be on hand, the boilers filled, fire started again and it is hoped the stays will stay until the Indiana gets to Manila.

Since her arrival in port the boilers of the Indiana had undergone more or less tinkering. She is a sort of Brutus No. 2, for in the engines of the collier Brutus there was overtime galore for the Iron Works boys. There is nothing the matter with Engineer Boyling. He is a sort of second Billy Eassie, knows what he wants, and wants it right away. There was no way of testing the Indiana's boilers until she was under a full head of steam. Modern liners have a number of boilers and a deficiency like this would only cause one to be shut down. The others could do the work at a little more pressure. The Indiana's boiler room is limited and a leakage like this causes a complete stop.

The troopship Newport exchanged paring signals with the fleet but being independent of this expedition and purely the flagship of Major General Merritt continued on her way and will probably make the Philippines at least a week ahead of General MacArthur's fleet.

The repairs for the Indiana's boilers were completed at noon on Saturday by the Honolulu Iron Works. The whole power plant was then given a thorough test. Soon after 2 o'clock the five transports again headed for the sea and rapidly progressed into the horizon till they were lost to view. Though the five ships had rested or laid some distance from the harbor, many city people were out in small boats, launches and pleasure sloops to shout farewells and to make a final exchange of cheers. The engineers of the Indiana and others of the squadron of five hardly expected to overtake the Newport, but did not believe Gen. Merritt would be able to reach Manila more than a couple of days ahead of the Indiana and companions.

Grinding Over at Ewa.

The grinding of the 1897-8 cane crop of Ewa plantation was finished on Saturday evening last and manager Lowrie and the directors and shareholders are correspondingly elated.

It was understood to be stated by a heavy Ewa stockholder yesterday that the sugar tonnage when the mill closed down was about 18,400. The work of "drying" is now under way and will be for two weeks. The result of this will be the raising of the total output of 19,000 tons—considerably more than any plantation has ever produced on the Islands.

Idea of German Interference is So Pronounced.

Statement of Attitude From Two Sources—Associated Press Interview—Harold Frederic.

(Associated Press).

Emperor William's sentiments in regard to the war between Spain and the United States have considerably changed during the past month. A member of his Majesty's entourage informs the correspondent here of The Associated Press that the persistent statements of the American and British press, "often coupled with insulting comment, alleging the Emperor intends to actively interfere in behalf of Spain and imputing to his Majesty sentiments which were actually foreign to him at the opening of hostilities," have greatly annoyed the Emperor, and the "constant reiteration of the erroneous statements as to Germany's official attitude being unfriendly to the United States," have displeased Emperor William exceedingly.

"After the repeated official assurances which our Government has given of its intention to maintain the most strict and most loyal neutrality," continued the official, "and his Majesty's brief but pointed declaration to the same effect in the speech from the throne at the closing of the Reichstag, in which he testified to the unbroken friendship between the two countries, it is downright folly to speak of Germany's ulterior motives in connection with the war. There has not been a single act or word of the Government which could be construed as unfriendly to the United States, nor has the Government any such intention in the future."

Harold Frederic, the London correspondent of the New York Times, sent on June 16th to his paper the subjoined, which is sufficiently weighty to be accepted at all the capitals of the world. Mr. Frederic has the very highest political connections:

"It is difficult to comprehend on this side the genesis of the recurring scares about German intervention in the Philippines reported from the United States. Nothing could be more silly than to credit Berlin with a desire to become embroiled with Washington. It is the last thing the Kaiser would dream of. His inner desires and ambitions are in a diametrically opposite direction. He thinks of himself, in the last resort, as representing some fifty millions of the Germanic race placed in the centre of Europe from the North Sea to the Danube, menaced on one side by hereditary Latin foes and on the other confronted daily by the vast limitless tide of Slavdom. He knows well enough that these two are drawn by internal forces into antagonism to the German between them. Every time there is a street riot between Czech and German in Prague or a scuffle between Dane and Prussian in Holstein, or Pole and Prussian in Posen, it makes clearer to his mind that Germany's ultimate resources may turn out to be her kinship with the Anglo-Saxon people, which, a while ago too remote to think out, has now become one of her familiar intellectual assets. In some future emergency, near or far, it may loom before her as a veritable rock of deliverance. That is the truth about the German policy, which wishes to keep well with both the English-speaking nations, and, moreover, is informed and far-seeing enough to have a much clearer perception of America's stupendous future might than exists elsewhere."

THE PASSING HOUR.

Mr. Inotwhynot? Loebenstein, who came from Hilo some months ago to be a Legislator, has decided to remain in Honolulu. Those Hilo people must have diabolical, barbarous and inflexible ideas of revenge and must have been applying them quietly for some time.

The cable for Hawaii will be a terrible blow to those wise individuals who have so thoroughly mastered the doubtful occupation of disseminating misinformation in this community. These busybodies by their chatter have at times done no little harm.

The Legislators adjourned without presenting gavel to the presiding officers. This is a signal sign of progress. The Legislature was also slightly un-American in the fact that the desks are yet in the halls and contain some stationery.

Those ships carrying troops of the United States to Manila, fit nicely, for Honolulu, the poetical phrase "transports of joy."

New Public Work.

It is understood that no public work requiring funds from the loan act will be undertaken till the annexation resolution is disposed of by the Senate at Washington. In the meantime plans will be made for the many and varied projects set forth in acts to the Legislature. The public work that has been maintained right along will be continued with the current funds. Further dredging of the harbor will come under this head.

EDWIN A. JONES

Death Calls a Leading Young Man of Hawaii.

STRICKEN DOWN AT WAIKANE

Mad Gone to the Country Home for the Fourth. Physicians Called From Town. A Noble Man.

One of Hawaii's brightest and best young men is gone. There is ended the life of one of the noblest character, one of large heart, high faith and purest instincts. To know that Edwin A. Jones is dead will be to many a staggering blow. He was born here, has grown to manhood in the community and he was one whose acquaintances soon became warm friends. It was a pleasure and a privilege to be on intimate terms with "Ned" Jones. For all no man had a more cheery word or a heartier grasp of the hand. Mr. Jones will be greatly missed. He was active in a large part of the great work for the good of the community and no one man here was more to a greater number than was "Ned" Jones. The curtain of death has been lowered before a face that many loved, that all esteemed as the countenance of one sincere, earnest and deeply honest. Day in and day out, year after year, "Ned" Jones was just what he seemed to be—willing to be a friend and a friend worth having. The grief-stricken parents are Mr. and Mrs. P. C. Jones, who have the sympathy of the whole community in the loss of their only son.

Mr. Jones had been the treasurer of the institution for several successive years and was acknowledged to be the best man that ever held the office. Being conveniently located in the center of the city he was in closer touch with the financial interests of the Association than most men could be. Then he was earnest and careful, ever watchful of the matters intrusted to him. It is worthy of note that during Mr. Jones' incumbency, as treasurer of the Y. M. C. A. there was not a time when both ends failed to meet.

The funeral of the late Edwin Austin Jones took place from the residence in Nuuanu valley at 3 o'clock yesterday afternoon. At the house a simple service was held and there was merely the reading of the Scripture and singing of two hymns at the grave. Mr. Jones loved children, loved simplicity and disliked ostentation in any form. It was for that reason that the last rites were simple and unobtrusive.

The casket occupied a position in the center of the main parlor. It was literally covered with the beautiful floral remembrances of friends, and

EDWIN A. JONES. (Photo by Williams.)

flowers were banked on either side of it. The room and the neighboring veranda were filled with people.

Rev. D. P. Birnie, of Central Union church, conducted the services. He read selections from the scriptures applicable to the occasion and then offered prayer. Following this he made a very few remarks relative to the triumphant Christian death of Mr. Jones.

A quartette from Central Union church choir presented two hymns. The voices were Mrs. Theo. Richards, Mrs. Woodward, H. P. Wichman and J. Q. Wood. Professor Ingalls presided at the organ.

The slow march to the cemetery was sad, solemn and impressive. Rev. Mr. Birnie led the way and was followed by the hearse, relatives of deceased and sorrowing friends.

The bank beside the grave was buried beneath evergreens, mallee, asters and other flowers. Vari-colored carnations hung thickly over each side of the grave. After the casket had been lowered Rev. Mr. Birnie read the sentences of the committal and closed with the benediction.

At this juncture a dozen girls from the Sunday school of Palama Chapel appeared beside the grave and sang "Jesus Lover of My Soul," and "Rock of Ages." Mr. Jones was a patron and great friend of the Palama Mission work. As the grave was being filled the children of the school, standing near by, threw flowers into it.

The pall bearers were Geo. R. Carter, E. R. Adams, Clarence Cooke, Fred J. Lowrey, S. G. Wilder, J. A. Gilman, F. W. Macfarlane and E. O. White.

INTERIOR OFFICE CHANGES.

Some Promotions Follow Departure of Mr. Meyers.

H. C. Meyers yesterday assumed his new duties as deputy auditor general. George C. Ross, who has been third assistant clerk, succeeds to the position of second assistant clerk, though he remains on the books, but at increased salary. Edward N. Boyd, stenographer, takes Mr. Meyers' desk and becomes third assistant clerk. Gus Rose, from the Immigration bureau, takes Boyd's work and enters the office as a new man.

James Boyd retains his old position, but at an increased salary. The position held by Gus Rose in the Immigration bureau, was cut out by the Legislature.

Bond Suit.

Yesterday afternoon the Kahului Railway Co. entered suit against the Hawaiian Commercial Co. to recover the sum of \$500, amount of bonds filed by the latter in a suit against the former about three months ago. It was at the time the Hawaiian Commercial sued the Wilders for possession of their railway track land that the bond was given. The railway people now claim that the case of the Hawaiian Commercial was sustained, and the bond of \$500 is therefore due to them.

Hospital for Lihue.

Lihue, Kauai, is to have a hospital for the treatment of the sick of all nationalities. It will be a private affair, supported by private capital, but for the general benefit. John F. Hackfeld, the Wilcox brothers and other wealthy men are interested. The hospital will occupy a handsome building, plans for which are now being prepared.

New Inter-Island Steamer.

The I. I. S. N. Co. is having built by Hall Bros., at Port Blakely, a new sister steamer to the Noeau. The new steamer will be here in November.

A DIAMOND DRILL

Wm. Adams Will Follow Wm. Eassie to Klondike.

BACKED BY LOCAL CAPITAL

Company Organized Here—An Old Prospector and Engineer—Found Friends in Honolulu.

Island capital is to place another first class individual free handed in the Klondike gold fields. The first is Wm. Eassie, who left San Francisco for the north but a few weeks ago. The second will be Wm. Adams, who is just the same sort of a man for the business.

Mr. Adams goes hence at an early date as the field representative, the agent and the practical manager of the "Klondike Mineral Prospecting Proprietary Syndicate." The organization of this company here is in the hands of Harry Armitage, the well known stock broker.

The company will have a capital of \$10,000, with power to increase to \$50,000. There are a number of applications for stock in already and the subscription books will be opened without delay. The shares are \$100 each. Only eighty of the shares will be sold in Honolulu. This will make a working capital of \$8,000, which will be deposited with proper safeguards. Mr. Adams is to have twenty shares for his services, in complete payment.

The objects of the company are stated to be to send Wm. Adams, mining engineer and explorer, to the Klondike and adjoining gold fields in Alaska and British Columbia to explore and prospect for gold and other precious minerals. He will be authorized to work, mine, float, lease or sell such mineral properties, to form companies, or to proceed in any businesslike manner for the benefit of the Honolulu company.

Mr. Adams will first proceed to San Francisco, where he will purchase a suitable diamond rock drilling plant and other machinery for the expedition prospecting of deep sinking alluvial or place deposits or auriferous quartz reefs or lodes.

It is stated that on arrival at the gold fields with such a plant it will not be necessary to hunt up new diggings, as undoubtedly satisfactory terms can be made with the owners of known valuable claims or mines to bore and determine the approximate value of the ground without going to the expense of sinking shafts and making drives. A diamond drill will do as much prospecting work in a day at a trifling cost as can be done by sinking and driving in a month. Where the ground is frozen it will not be necessary to thaw it out, as the diamond drill will work equally well, if not better in frozen ground. Claims and mines can be bonded, tested by drilling and sold or floated in a few weeks.

As to Mr. Adams, he could not argue himself unknown, if he would. He has had an experience of thirty years in the mining and treatment of gold, silver, copper, lead, etc. in California, Nevada, Arizona and in Australasia. From 1876 to 1881 he was superintendent of the Indian Queen Mining and Milling Company, in Esmeralda county, Nevada, returning to the same holders \$130,000 in dividends. From 1882 to 1884 he was the manager of a group of mines near Prescott, Ariz., including the Belle Gold and Silver Mining property and the United Verde Copper Company's mines. In 1885 and 1886 he was associated with Mr. Seeley I. Shaw, now of Honolulu, in the great petrified forest or chaledony park of Arizona. In 1887 he was general manager of the Tevora Gold and Silver Mining company, of Waroromang, New Zealand. From 1888 to 1890 he was general manager of the Broken Hill Junction Silver Mining company of Broken Hill, and made the enterprise yield \$250,000 in dividends. In 1894 Mr. Adams went to Western Australia, where he was connected with mining engineering and expert with some of the leading operators and companies. Mr. Adams is an Englishman, but has many acquaintances on the Pacific slope in the States. He is of the opinion that the coast cities are to have the mining boom for an indefinite time and that there will be big money in the scheme he has on hand. Mr. Adams met friends here in the persons of L. C. Ables, Geo. Ashley and others.

Those Who Left.

The following left Honolulu by the transports for Manila: P. Nelson, Oscar Oleson, Charley Jackson, Pat Murphy, Burns, Jones, Doyle, Bowen, Jas. Delaney, Charles Ott and a C. A. R. man, a stranger, taken by General Merritt on the Newport.

Kapiolani Case Settled.

The case of the Dowager Queen Kapiolani vs. Princes David and Cupid, action to set aside a deed, has been amicably settled by and between the litigants.

"Last summer one of our grand-children was sick with a severe bowel trouble," says Mrs. E. G. Gregory, of Fredericktown, Mo. "Our doctor's remedy had failed, then we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave very speedy relief." For sale by all druggists and dealers. Benson, Smith & Co., agents for H. I.

Ager's Hair Vigor

What does it do?

It causes the oil glands in the skin to become more active, making the hair soft and glossy, precisely as nature intended.

It cleanses the scalp from dandruff and thus removes one of the great causes of baldness.

It makes a better circulation in the scalp and stops the hair from coming out.

It prevents and it cures baldness.

Ager's Hair Vigor will surely make hair grow on bald heads, provided only there is any life remaining in the hair bulbs. It restores color to gray or white hair. It does not do this in a moment, as will a hair dye; but in a short time the gray color of age gradually disappears and the darker color of youth takes its place.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A. HOLLISTER DRUG CO., Agents.

LOCAL BREVITIES.

Murat Halstead, at the Queen's hospital, is much better.

The sum of \$1,700 was raised in Hilo for the Fourth of July celebration.

Gen. MacArthur said that Honolulu was the prettiest and cleanest city he had ever visited.

Hilo had a big old-time Fourth of July celebration. There were foot races and horse races.

Rev. V. H. Kiteat goes to Kohala for two weeks to allow another of the clergy a vacation trip.

C. B. Reynolds will leave the last of the week for the Settlement. He will be away about ten days.

There were landed on quarantine island from the S. S. Gaelic Friday 147 Chinese and 158 Japanese.

J. Hopp & Co. offer chamber sets and were mattresses at prices that need no second invitation to buy.

L. T. Kenake, of the post office, placed 18,000 letters and several bags of papers aboard the S. S. Gaelic last night.

Governor George B. Greig, of Fanning's Island, is the father of a fine boy, born at the Maternity Home on Saturday.

The Gazette Company has over 3,000 addresses for the "Boys in Blue" edition, to be mailed free to friends of the soldiers.

There are five patients in the Red Cross hospital, three of whom are abed. They will all return from here to the States.

Thomas Hennessey will be made Assistant bookkeeper in the Board of Health office, a position created by the last Legislature.

Henry C. Myers is the deputy auditor general. His nomination by Auditor General Laws was Friday approved or confirmed by the Cabinet.

Don't let the little ones suffer from eczema, or other torturing skin diseases. Doan's Ointment cures. Can't harm the most delicate skin. 50 cents.

Colonel Parker is a G. A. R. man, having served through the late war. The local post will arrange a reception in his honor before he returns home.

Minister Hatch sent from Washington by the last coast mail a telegram to the effect that the situation with regard to annexation was most reassuring.

At a meeting of the Board of Officers of the N. G. H. last evening it was voted to postpone the consideration of summer encampment for the regiment for the present.

If all goes well the monitor Monadnock will sail on Wednesday for Manila. She expects to be overhauled by the fourth expedition, which should arrive here this week.

Albert Weinrich, one of the defendants in the Labrador opium case, shipped out by the Warrimoo. He was ill at the hospital and it was thought unnecessary to keep a guard over him.

Judge H. E. Cooper, Minister of Foreign Affairs, will be in Manoa valley most of the time for a week now. He is taking a rest after congressional labors, and as well settling down in his new home.

Miss Rose Davidson is candidate for the position of assistant in the Department of Education, a new office created by the present Legislature. She has been performing the duties prescribed for the place for the past two years.

The banks and several large business houses were closed yesterday afternoon out of respect to the memory of the late E. A. Jones. Flags on the Y. M. C. A. Sailors' Home, Pacific Tennis courts and shipping in the harbor were at half mast.

A New Citizen.

While sojourning in Honolulu as a member of the House of Representatives for Hilo District, A. B. Loebenstein has become so tenaciously enamored of the capital that he will remain indefinitely. In all likelihood he will become a deserter from the coffee belt and devote his best efforts to the improvement of affairs generally in

the Greely expedition. Accompanying the photograph are a piece of grass found on the farthestmost land; a piece of seal skin which was used by the expedition for food, and a part of the flag carried by the expedition. Colonel Brannard is on the staff of General Merritt and was in Honolulu during the stay of the Newport here.

S. R. Dowdle.

S. R. Dowdle of Makawao is visiting the city for the first time in three years. He was employed as architect in the office of Ripley & Dickey until ill health compelled him to leave Honolulu. He went to Maui and took a school. To all appearances he is completely restored to health.

Colonel Brannard.

The Pacific Hardware Co. displays a picture of Colonel Brannard, taken in 1884 when he was a lieutenant with

Dredger Resumes.

The Government dredger after a long rest has gone to work again at the new slips near the Pacific Mail wharf. She was moved into position yesterday afternoon and today the pontoons will be placed so as to discharge the debris back of the Leilani boat house. The schooner Labrador's hulk was towed, to the side of the harbor to make room for the dredger's movements.

Pacific Mail Steamship Co.

—AND—

Occidental & Oriental Steamship Co.

Steamers of the above companies will call at Honolulu and leave this port on or about the dates below mentioned.

OUR REPUTATION

For fine watch work is widespread; but we wish to impress the few who may not yet be in line, with the necessity of sending their watches when out of order to us directly; and not first allow every linker to ruin the watch, after which, send it to us for proper repairs.

The Cost is always more to you, after such treatment; ever so much better to send it right down to us, for we allow nothing but perfect work to leave our workshop.

You will be surprised, too, how much cheaper it will be, and how much more satisfactory to you.

Watches are securely packed in wooden boxes, and returned in the safest possible manner.

H. F. WICHMAN
BOX 342.

Our Claim

Upon your attention today will prove a safe investment for you.

THE SAFETY DOCUMENT FILE.

Keeps valuable Papers of all kinds safe. Enamelled Metal Case, strong Manila Pockets, separate and removable. Best and safest system of filing Leases, Contracts, Insurance Policies, Notes, Bonds, Mortgages, Deeds, Etc.

Two sizes:
No. 10. Size 3x5 1/4 x 11 inches closed. Contains 24 pockets 4 1/2 x 10 1/4. Price \$2.

No. 20. Size 4 1/2 x 5 1/4 x 11 inches closed. Contains 31 pockets 4 1/2 x 10 1/4. Price \$2.50.

Sole Agents for Hawaiian Islands.

Wall, Nichols Company

Vapo-Cresolene

WHOOPIING COUGH, CROUP, ASTHMA, CATARRH, COLDS.

* CRESEOLINE being administered by inhalation, gives the safest and most effectual means of treating the throat and bronchial tubes. Its efficiency in Whooping Cough and Croup is wonderful. Its antiseptic virtues render it invaluable in contagious diseases, as Diphtheria, Scarlet Fever, etc. Descriptive booklet with testimonials free. Sold by druggists.

ONE POCKET VETO THE BLOUNT FLAG

Pres. Dole Pigeonholes the New Cable Act.

Plain Reason for Doing This—Contract Made Under Existing Statute.

President Dole did not find it necessary at this session of the Legislature to send to the branches of either of them a veto message. He did disapprove of two items in one of the appropriation acts. This was reported in the proceedings of the last day of the term. But Mr. Dole has made one "pocket veto." He thus disposes of the cable act, over which there was so much debate in the Senate and House. The assembly refused to agree to some of the provisions offered and favored heartily by members of the Cabinet. The actual reason for permitting the new act to die a natural death lies in the fact that the Government has in the meantime, entered into a contract with the Scream Cable company under another law. The pocket veto operates when the Executive chooses, at about the close of a session, to neither approve nor disapprove an act. While the assembly is alive an act in the hands of the Executive ten days without veto or signature, becomes a law.

Gen. Hartwell, who is attorney here for the Scream, or Morgan company, says that he believes there will be no delay in the commencement of construction operations. The plan had been to await legislation by the Congress of the United States and a right of way had been assured in the House of Representatives. However, the plan of proceeding with the building will in all likelihood be followed, as the promoters recognize the necessity of a cable in the Pacific and are satisfied that the Government of the United States will be prompt and liberal in encouraging the enterprise. It is not claimed by anyone that the cable would pay as a purely commercial venture for many years yet.

NEW PRAYER.

One Promulgated By the Bishop of Honolulu.

At St. Andrew's Cathedral yesterday morning, Rev. Alexander Mackintosh preached on the lessons taught by the war now going on. The hymn "For Those At Sea" was sung and the following prayer which has been promulgated by the Bishop of the diocese was given:

O Almighty God, the Sovereign Commander of all the world, in Whose Hand is power and might which none is able to withstand; we make our humble supplications unto Thee in this time of war that the fierceness of man may turn to Thy praise, to the advancement of Thy Gospel, the deliverance of the oppressed, the putting down of tyranny, and the good of all mankind. Sustain them that sail, comfort the sick and wounded, support the dying, provide for the widows, shield the orphans; and in Thine Own time restore peace to Thy world, that Thy Church may joyfully serve Thee in all Godly quietness, through Jesus Christ our Lord, Who with Thee and the Holy Ghost liveth and reigneth, One God, world without end. Amen.

In the course of his sermon, Rev. Mr. Mackintosh referred to Hawaii as the ally of the United States.

TUG-OF-WAR.

A Tournament in Connection With Cycle Races.

The races which were to have taken place at Cyclomere Bicycle Track last Saturday evening will be run off Saturday, July 16.

In order to make the program more interesting a tug-of-war contest will take place after the bicycle races. It is the intention of the Lessee to have at least 5 teams enter into the contest for a substantial purse.

One pull only each evening of the races will take place. Any team losing two times will be considered out of the tournament.

The teams to contest next Saturday evening are the School street team composed of Sam Kamiko, Frank Sylvestor, Keli, P. Noa, Kalei, John Hiram, D. Keola and D. Ritchard, captain; and the Iwilei team of M. Delacius, D. K. Namokueha, D. K. Kahalekaula, W. Naanao, Ah Soye, A. Kahalekaula and A. M. Naanao, captain. Entries for both tug-of-war teams who wish to enter and for the bicycle races must be in not later than Wednesday evening at 8 o'clock, with M. Dupont. The match between Allan Jones and H. Ludloff is off for the present.

Barney Rowland, a young Hawaiian, was an applicant for enlistment on board the United States troopship Indiana last Friday. He was refused and had to be stopped by the guard from stowing away. He had been furnished by some of the soldiers with a full uniform and was reported quite grief stricken when this disguise failed.

"Pres. Has Put His Foot Down."

Reed Had a Headache—Public Sentiment—Amendment.

This telegram from New York came yesterday to a big local house:

"Annexation Senate debate continues. An amendment abrogating labor contracts has been proposed by Pettigrew and is favored by some supporters but will be opposed by committee if votes sufficient are found available. Treaty will be adopted instead of House Resolution. Senate has appropriated \$145,000 for opening Pearl Harbor and purchase of land, but it is not yet approved by House."

A gentleman prominent in the legal force of the Department of the Interior at Washington writes to a citizen of Honolulu:

"It is now definitely settled that Hawaii will be admitted. It is expected that the Senate may drop along for a couple of weeks before passing the joint resolution. Then we shall have a new star on Old Glory. The sentiment of the country is for annexation and this means that nearly all of the Republicans and a large percentage of the Democrats favor it. The President has put his foot down hard and the Senate will be kept at it, or the Islands will be annexed as a military necessity. The flag that Blount hauled down will be put up again, even if the Senate should happen to prove refractory. The New York Journal, which is Democratic, says that there are fifty-nine votes in the Senate for the annexation of Hawaii. I presume that business will boom for you in the Islands more than ever after annexation, as no end of capital will be put into the carrying trade of the Pacific and the development of the Philippines and Hawaii."

"The war is very popular and the administration is meeting with cordial support. Free silverism seems about dead, especially since the Oregon election, where the Republicans, on a strictly gold standard platform, swept everything by large majorities over the combined votes of all other parties."

"I have never seen such a change as can be noticed in the people of this country. Since the war opened all talk of glory and conquest and the acquisition of territory."

"When the joint resolution on Annexation passed the House Speaker Reed had a headache and is still confined to his room. It is said that he would have voted 'No' had he been present."

SOARES-FERNANDEZ.

Honolulu Preacher Married at Portuguese Church Last Evening.

A quiet and pretty wedding was solemnized at the Portuguese church, corner Punchbowl and Miller streets, last evening at 7 o'clock. The pastor of the church Rev. A. V. Soares, was married to Miss A. Fernandez, by Rev. C. M. Hyde.

The church was filled with the members and friends of the mission, all friends of the popular pastor and the well known young lady. The platform and choir loft were handsomely decorated with palms, ferns and white flowers. This was the work of Mrs. Tarbel and the younger members of the congregation.

During the ceremony the sweet tones of the organ were well brought out by Miss Pires, who played appropriate music. At the close Mendelssohn's Wedding March was played.

After the ceremony those present tendered Rev. and Mrs. Soares their hearty congratulations, and then the bride party, including Miss May Ferreira and Ernest Silver, took carriage for Waikiki, where the newly married couple expect to spend the summer.

Bennington at Mare Island.

The United States gunboat Bennington was put in Mare Island drydock June 28th, where she will receive the thorough overhauling and scraping that she stands very much in need of after her ten months in Honolulu harbor. No time will be lost in getting her ready for service and she will be ordered to Manila by way of this port as soon as her repairs are completed.

REASONS WHY CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY IS THE BEST.

1. Because it affords almost instant relief in case of pain in the stomach, colic and cholera morbus.
2. Because it is the only remedy that never fails in the most severe cases of dysentery and diarrhoea.
3. Because it is the only remedy that will cure chronic diarrhoea.
4. Because it is the only remedy that will prevent bilious colic.
5. Because it is the only remedy that will cure epidemic dysentery.
6. Because it is the only remedy that can always be depended upon in cases of cholera infantum.
7. Because it is the most prompt and most reliable medicine in use for bowel complaints.
8. Because it produces no bad results.
9. Because it is pleasant and safe to take.
10. Because it has saved the lives of more people than any other medicine in the world.

For sale by all druggists and Dealers, Benson, Smith & Co., agents for H. I.

Alexander McAngus did not leave by the transports for Manila. He will likely get away on a later expedition.

THEY CELEBRATED

Maui Folk Have High Jinks on July Fourth.

Aquatic Events—Procession of Antiques and Horribles—Day Ends With Fireworks.

MAUI, July 9.—The long program in celebration of the 4th was most successfully carried out by Hana residents. At 9 a. m., the salute of 21 guns was fired by Davidson at Kauniki. Peka, a Hawaiian boy of 15 years won first prizes in the swimming race, railroad race, diving contest, and walking the greased beam. Small cash prizes were given in all the sporting events. F. Wittrock was judge and Mr. Bryant starter.

The procession of antiques and horrors was headed by a band who made music on toy drums and toy trumpets. George Washington, Martha Washington, Uncle Sam were among the characters impersonated.

Fully 600 people sat down to the grand luau at Kaloanoho, Wananalua. The pie eating contest was amusing. George Cooper won the fat man's race, high jump, broad jump and with H. Howell won the three-legged race.

The celebration came to end after the fireworks from the yacht Kaimilani anchored in the bay.

The races at Spreckels' park were largely attended and were a financial success. Prior to the racing 3 innings of baseball were played between Ulupalakua and Kahului nines. The former team won with a score of 8 to 7. The committee in charge was made up of H. C. Overden, grand marshal; K. S. Gjerdum, Dr. R. J. McGettigan, J. H. S. Kaleo, R. K. Kaiwaha.

Some of the guests at Mrs. H. B. Bailey's Makawao during the week were L. F. Brown of Boston, E. B. Holmes, (the lecturer) and O. B. Dupue of Chicago, A. H. Fidd of London, England and Miss Edwards of Honolulu. The four gentlemen made the trip to Haleakala on Thursday.

The Thursday Club met at Mrs. C. H. Dickey's, Haiku during the afternoon of the 7th.

Dr. Weddick is now established at Waikuku and Dr. McConkey at Paia. At Kahului, the schooner Muriel has finished discharging her coal and will probably sail for San Francisco next Wednesday.

The schooner Otelle Ford is still discharging number and will not sail for San Francisco before the latter part of next week.

The weather is very pleasant.

IN MASS MEETING.

Christian Societies Have a Joint Service Last Evening.

The Christian Church was crowded on the occasion of the union meeting of various young people's societies held last evening. Central Union, Christian, Methodist, Kaunakapili and Kawaihau Churches and the Oahu College and Kamehameha Y. M. C. A.'s were represented.

Mrs. Coleman led the meeting in a most interesting manner, ably presenting the subject, "Strength for daily need." Her address was followed by informal talks on the same subject by several others. Another special feature of the program was a vocal solo presented by Miss Hyde of Panahou.

HUNG HIMSELF.

Patient at Insane Asylum Deliberately Commits Suicide.

About 11 o'clock last night Dr. Geo. Herbert received a telephone call from the Insane Asylum. Accompanied by

Dr. Humphris he went out and found a Chinaman in a state of coma from strangulation. All efforts to resuscitate were vain.

When the guard made the rounds at 10 o'clock the Chinaman was in bed and, apparently, asleep. At the 11 o'clock visit he was found hung with two pieces of cloth, tied together, fastened high up in the bars of the door. He had thrown himself so as to produce strangulation.

The suicide was a blacksmith on Maui and was brought down about two months ago. Melancholia, induced by business troubles, was his ailment. He had been insane about four months.

THE HOLY LAND.

Rev. D. P. Birnie to Deliver a Farewell Lecture.

Rev. D. P. Birnie will deliver a illustrated lecture in the parlors of Central Union church next Thursday evening on the subject, "Across the desert, Sinai and Petra." Stereoscopic views taken during a tour of Mr. Birnie through Palestine will be exhibited by Mr. Hedemann. The lecture will be under the auspices of the Young Men's Research Club. In fact the lecture is given at the request of the club.

Rev. Mr. Birnie's travels in the East and personal study of historic Bible lands eminently fit him for the task of clearly explaining his subjects. The executive committee of the Research Club, which will have the matter in charge, consists of J. T. Crawley, D. H. Case and Ed Towse.

Captain Cochrane There.

Honolulu's old friend Captain H. C. Cochrane, formerly of the Philadelphia, was an officer with the 69th marines landed at Guantanamo, Cuba. He is third in command there. The captain was through all of the fighting and did his share of it. Lieutenant Draper, who was here on the Boston in 1893 and was well known in connection with the Stevens' protectorate, is with Captain Cochrane at Guantanamo.

A LONG FELT WANT.

It is supplied in Honolulu at Last. It is hard to always be pleasant. Good natured people are often irritable.

If you knew the reason you would not be surprised. Ever have itching piles? Not sick enough to go to bed nor well enough to be content.

Nothing will annoy you so. The constant itching sensation. Hard to bear, harder to get relief. Keeps you awake nights. Spoils your temper—nearly drives you crazy.

Isn't relief and cure a long felt want? It is to be had for everyone in Doan's Ointment.

Doan's Ointment never fails to cure Itching Piles. Eczema or any itching of the skin. Here is proof of it in the testimony of Mr. Frank H. Green, of 425 Tenth St., Scranton, Pa., who says: "I have been a great sufferer from itching piles which bothered me day in and day out and was worse than enduring real pain. I used a great many salves in the last eight or ten years, but I never derived any permanent relief from them. If I got warm and sat down the terrible itching would begin and I always felt it come on when I undressed and retired. I saw Doan's Ointment advertised and procured a box and used it according to directions. Two applications convinced me that it was right and continuing the treatment I was entirely cured and have had ease and comfort ever since. I am a great advocate of Doan's Ointment, and at any time I shall be glad to verify the above statement."

Doan's Ointment is for sale by dealers at 50c per box, or will be mailed to any address on receipt of price, by Hollister Drug Co., Ltd., general agents, Honolulu.

Remember the name DOAN'S and take no substitute. General agents for Hawaiian Islands, Hollister Drug Co., Ltd., Honolulu.

Joaquin Souza and Miss Mary Cabral were married by Father Valentine in the Catholic Cathedral at 7 o'clock Saturday evening.

BY AUTHORITY.

E. Kapa, Esq., has this day been appointed a Commissioner of Private Ways and Water Rights for the District of South Kona, Island of Hawaii.

J. A. KING, Minister of the Interior, Interior Office, July 5th, 1898. 1983-3t

IN THE CIRCUIT COURT, FIRST Circuit, of the Hawaiian Islands. In Probate.

In the matter of the Estate of Hermann Kaouli, late of Honolulu, Oahu, deceased, intestate.

Petition having been filed by Philomena Kaouli, widow of said intestate, praying that Letters of Administration upon said estate be issued to her; notice is hereby given, that Monday, the 8th day of August, A. D. 1898, at 10 o'clock a. m., in the Judiciary Building, Honolulu, is appointed the time and place for hearing said petition, when and where all persons concerned may appear and show cause, if any they have, why said Petition should not be granted.

Honolulu, July 8, 1898. By the Court: P. D. KELLETT, JR., Clerk.

IN THE CIRCUIT COURT OF THE First Circuit, Hawaiian Islands.

Henry E. Cooper, Minister of the Interior ad Interim vs. George H. Newton and Caroline Newton Clarke. Action for condemnation of land for public use.

The Republic of Hawaii:

To the Marshal of the Hawaiian Islands, or his Deputy, Greeting:

You are commanded to summon George H. Newton and Caroline Newton Clarke, defendants in case they shall file written answer within twenty days after service hereof, to be and appear before the said Circuit Court at the August Term thereof, to be held at Honolulu, Island of Oahu, on Monday the 1st day of August next, at ten o'clock A. M., to show cause

why the claim of Henry E. Cooper, Minister of the Interior ad Interim, plaintiff should not be awarded to him pursuant to the tenor of his annexed petition.

And have you then there this Writ with full return of your proceedings thereon.

Witness Hon. A. Perry, First Judge of the Circuit Court of the First Circuit, at Honolulu, Oahu, this 11th day of May, 1898. GEORGE LUCAS, Clerk.

1967-3ms

IN THE CIRCUIT COURT, FIRST Circuit, of the Hawaiian Islands. In Probate.

In the Matter of the Estate of James I. Dowsett, late of Honolulu, Oahu, deceased, intestate.

Petition having been filed by Edward Dowsett, son of said intestate, praying that Letters of Administration upon said estate be issued to John M. Dowsett, notice is hereby given, that Monday, the 25th day of July, A. D. 1898, at 10 o'clock a. m., he and hereby is appointed for hearing said Petition in the Court Room of this Court at Honolulu, Oahu, at which time and place all persons concerned may appear and show cause, if any they have, why said Petition should not be granted.

Honolulu, June 27th, 1898. By the Court: P. D. KELLETT, JR., Clerk.

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE AND OF SALE.

In accordance with the provisions of that certain mortgage made by G. S. Houghtalling to J. A. Magoon, dated July 31st, 1896, recorded in the Register Office, Oahu, in Liber 163, pages 210, 211 and 212, notice is hereby given that said Mortgagee intends to foreclose the same for condition broken, to-wit, the non-payment of the first installment of principal when due and the non-payment of the interest when due.

Notice is likewise given that after the expiration of three weeks from this date, the property covered by said mortgage will be advertised for sale and will be sold at public auction at the Auction Rooms of J. F. Morgan, Honolulu, on Tuesday, August 2nd, 1898, at 12 o'clock noon of that day. Dated, Honolulu, July 5, 1898. J. ALFRED MAGOON, Mortgagee.

The property to be sold is as follows:

1. That certain land situate at Waikane, Koolau, Oahu, being a portion of Royal Patent 158, Land Commission Award 5,919, containing an area of 2.49 acres;
2. That certain land situate on Fort Street at Koloa, Honolulu, being the main portion of the land described in Royal Patent 1,634;
3. That certain land situate on King Street, at Pawa, Honolulu, being the same described in Royal Patent 7,185, Land Commission Award 3,134, containing an area of 2 roads and 9 perches. All the above described premises having been conveyed to said G. S. Houghtalling by deed of Eliza Meek, dated June 27th, 1896, recorded in the Register Office, Oahu, in Liber 164, pp. 4 and 5. 1982-4t

MORTGAGEE'S NOTICE OF INTENTION TO FORECLOSE AND OF SALE.

In accordance with the provisions of that certain mortgage made by D. K. Kaulike alias D. Kamakauahua and Piliua, his wife, to S. M. Damon, carrying on business under the style of Bishop & Company, dated June 17th, 1898, recorded in the Register Office, Oahu, in Liber 153, pages 317, 320 and 321, notice is hereby given that said Mortgagee intends to foreclose the same for condition broken, to-wit, the non-payment of both principal and interest when due.

Notice is likewise given that after the expiration of three weeks from this date, the property covered by said mortgage will be advertised for sale and will be sold at public auction at the Auction Rooms of J. F. Morgan, Honolulu, on Tuesday, August 2nd, 1898, at 12 o'clock noon of that day. S. M. DAMON, Mortgagee.

Dated, Honolulu, July 5, 1898. For further particulars apply to J. ALFRED MAGOON, Attorney for Bishop & Co.

The property to be sold is as follows:

1. All those pieces or parcels of land situate at Moanalua, Oahu, described in R. P. 3,505, L. C. A. 1,059, to Kekaha as Apanas 1, 2, 3 and 4, the same having been conveyed to said D. Kaulike by deed of Mokuaukai dated February 10th, 1879 and recorded in the Register Office, Oahu, in Liber 58, pages 120-1.
2. All that piece of land situate at Moanalua aforesaid containing an area of 1-3 acre, and being the same premises conveyed to said D. Kamakauahua by deed of S. M. Damon and wife, dated April 6th, 1891, described as follows:

E hoomaka ana ma ke kahi Akau Kom. o ka Apana Elua o Kekaha, Palapala Sila Nui Helu 3,505, a e holo Akau 45' Hik. 86.5 kap., holo Kom. 22' 30' Hikina 258 kap. ma ko Kekaha Apana Ekahi, alaila Ak. 46' Kom. 27 kap., alaila Ak. 40' Kom. 132 kap. ma ka palena o ka Pa Hale Kula, Ak. 45' Hik. 3 kap. Ak. 45' Kom. 79 kap. a hoi i kahi i hoomaka ai.

3. All the undivided interest or share of the said D. Kamakauahua in a certain piece of land situate at Lele, Honolulu, Oahu. 1982-4t

AT THE GAZETTE OFFICE.

A RACING SCANDAL

Charge That the Jockey Opiopio Was Bribed.

The Boy Makes an Affidavit.
Owner of Antidote Had
Suspensions.

There were special meetings of the Executive Committee of the Hawaiian Jockey Club yesterday in the forenoon and again in the afternoon. There had been presented by Mr. Wm. Wolters a matter which required attention. This was the affidavit of Jockey Opiopio concerning certain races on the Fourth of July. Opiopio swears that he was threatened violence and paid \$10 besides to "pull" the running horse Antidote in two races. These events were the mile, won by Amarino and the mile and a quarter, won by Sympathetic's Last. Opiopio has been a rider of good horses here for a number of years and it is said that he has always had the confidence of his employers, though he has been known to go on sprees just at the wrong time. On a number of occasions Opiopio has attracted attention by having a sort of a fainting spell after coming in first with his mount. The grave charge made in the affidavit is laid against Bullman, the boy who came here from the coast lately to ride. Bullman is quite young, but is a very good jockey. He has a first class reputation in San Francisco for straight riding and honest behavior. Bullman denies that he made any approaches to Opiopio other than to "josh" him and says the statement that he "fixed" two races for \$10 is absurd on the face of it. He points to the betting as showing that there was nothing wrong.

The owner of Antidote says that he suspected something was wrong in connection with both events and finally secured a confession from Opiopio. One thing represented is that the stirrups were bent from "pulling." Mr. Wolters says that he does not care for entrance fees or purses, but that he wants fair racing or he will have nothing whatever to do with it in any way. "Dick" Davis, in whose name Amarino ran, indignantly contradicts any such story as Opiopio tells and for one thing points to the fact that in which the mile was made. Mr. Schuman, whose horse won the mile and a quarter, says he knows nothing of any reported "jobbing."

Mr. Davis sends the following to the Advertiser for publication:

Having heard all sorts of rumors yesterday in regard to the Amarino-Antidote race on July 4th, I would say emphatically that neither myself or those interested with me in Amarino in any way offered a bribe of any kind to the rider or anyone else connected with Antidote. As my lease on Amarino expired on July 5th I am not in a position to offer to race him the same as I would be willing to do under ordinary circumstances, but if the Antidote owners think that an unfair advantage has been taken of them I will race them either for \$1,000 or \$1,500 one mile dash in four weeks. Should anyone care to accept this proposition I will buy Amarino if possible. I am yours truly,
D. H. DAVIS.

HOMING PIGEONS IN WAR.

Important Messenger Service Established on Ships.

The Homing Pigeon will play an important part in the present war with Spain, says The Feather. These winged messengers are enlisted in the messenger service of Uncle Sam, and important, indeed, will be the duty assigned to them. There will be no more efficient work in the service of the navy than the flights of the Homing Pigeon. For several years experiments have been made with Homing Pigeons as naval messengers with remarkable success, and now that there is need for the pigeons, it is found that the navy has at its disposal more than 500 of the fleetest little messengers ever placed at the call of a country.

The organization of the messenger pigeon service for use in time of war began with Professor Marion, of the Naval Academy at Annapolis, Md. Lieutenant Harlow, U. S. N., also began active experiments with the birds some two years ago, and to these two gentlemen is due the credit which now attaches itself to the pigeon service of the navy.

An efficient messenger pigeon service could be obtained by having stations at Bar Harbor, Portsmouth, Chatham, Newport, New York, Delaware Bay, Norfolk, Beaufort, N. C., Port Royal, St. Augustine, Jupiter Inlet, Key West, Tampa, Pensacola, Port Eads and Galveston. By this system a ship would be within range of a pigeon station from any position along the coast. Some of the above stations have already been established, and the others are now in contemplation.

The first practical use to which the birds were put was on the flagships of the Naval Academy off the coast. They carried out with them Homing Pigeons which were released and sent to the Navy Department. In this way the boats at sea kept the Navy Depart-

ment at Washington and the Naval Academy informed of their movements. Professor Marion, who had charge of the birds at the Naval Academy, soon demonstrated the value of their service.

For the past two years the most active training has been going on, and when the cote at Key West was established, Lieutenant Harlow was placed in charge of it. As soon as active hostilities were expected to break out between the United States country and Spain the Navy Department immediately made inquiries about the pigeon service and found that a large number of rapid, accurate pigeons could be placed at its disposal. The birds were taken to Key West, which is only ninety miles from Havana, and located in Lieutenant Harlow's cote there. They were taken out from this cote to sea and released time and again and always with the greatest success. Scarcely ever did a pigeon fail to return to its home. In the torpedo flotilla which was equipped to match Spain's flotilla means were provided on every boat for the accommodation of the Homing Pigeons.

It is asserted that the Navy Department will use 10,000 Homing Pigeons for service during the present war with Spain, to carry messages from the fleets to stations on shore. The Manhattan Homing Pigeon Club has loaned the government 2,000 of their birds for this purpose.

A cote for Homing Pigeons was out aboard the U. S. Flag Ship New York, a few days before her departure from the New York Navy Yard, and stocked with twelve of the best birds bred at the New York Loft. These birds are to be used by Admiral Sampson in transmitting messages from shore to the ship, and from the ships of the fleet, when out of signaling distance by semaphores and flags. They are to be trained to fly by sight only as the ship is constantly changing position. They are expected, however, to carry messages from fifty to 100 miles to the U. S. F. S. New York, these flights being over water.

Homing pigeons have already been used to some extent in the war. It is not generally known that the second Manila expedition had pigeons aboard on leaving San Francisco. One of these was liberated off the Farallones with a message to General Merritt. The bird was picked up in Watsonville by a small boy. It had on one leg a tin tag stamped "R1422." To the other was attached the usual little tin case containing a slip of paper, on which was the following message:

"General Merritt, San Francisco—We are passing the Farallone Islands at 4:45; smooth sea; cloudy; ships are in prescribed formation. We are making eleven knots instead of ten, and I believe we can maintain this speed. Admiral Dewey should be notified accordingly. (Signed) GREENE."

The Waverley Club.

W. Horace Wright, A. B. Scrimgeour, E. C. Winston, E. Winant, E. B. Thomas and A. V. Gear were appointed members of the Finance Committee.

The special committee appointed for that purpose reported enough money in hand to purchase the library of the late Charles T. Gulick. Special committee on rooms, consisting of E. C. Winston, J. T. Copeland and A. B. Scrimgeour, was authorized to proceed with the work of fitting up the new hall over Medeiros & Decker's store.

Committee on reception to Boys in Blue reported that rooms were occupied by soldiers for most of three days. Over 1,500 letters were written there.

CHRONIC RHEUMATISM.

A Malady That Makes Life Almost Unbearable.

From The News, Jackson, U. S. A.

The subject of this sketch is fifty-six years of age, and actively engaged in farming. When 17 years old he hurt his shoulder, and a few years after commenced to have rheumatic pains in it. On taking a slight cold or the least strain, sometimes without any apparent cause whatever, the trouble would start and he would suffer the most excruciating pains.

He suffered for over thirty years, and the last decade has suffered so much that he was unable to do any work. To this the frequent occurrences of dizzy spells were added, making him almost a helpless invalid.

He tried the best physicians but without being benefited and has used several specific rheumatic cures, but was not helped. About one year and six months ago he read in this paper of a case somewhat similar to his which was cured by Dr. Williams' Pink Pills and concluded to try this remedy. After taking the first box he felt somewhat better, and after using three boxes, the pains entirely disappeared, the dizziness entirely left him, and he has now for over a year been entirely free from all his former trouble and enjoys better health than he has had since his boyhood.

All the elements necessary to give new life and richness to the blood and restore shattered nerves, are contained in a condensed form in Dr. Williams' Pink Pills for Pale People.

Jas. Lemon and Dan Lyons, telephone operators, are ill. Lemon is quite sick. Lyons has the measles.

Manly purity and beauty are inseparably associated with CUTICURA, the world's greatest blood purifier and skin beautifier.

Sold throughout the world. British depot: F. HAWKES & SONS, 1, King Edward-st., London. FOSTER DUNN AND CHAS. COOP., Sole Props., Boston, U. S. A. "How to Purify the Blood and Beautify the Skin," post free.

MANUFACTURERS OF PURE BONE FERTILIZERS
AND PURE BONE MEAL.

.....DEALERS IN.....

Fertilizer Materials!

OF EVERY DESCRIPTION.

Have constantly on hand the following goods adapted to the Island trade:

HIGH GRADE CANE MANURE, FERTILIZERS,
NITRATE OF SODA, SULPHATE OF AMMONIA,
HIGH GRADE SULPHATE OF POTASH,
FISH GUANO, WOOL DUST, ETC
Special Manures Manufactured to Order.

The manures manufactured by the CALIFORNIA FERTILIZER WORKS are made entirely from clean bone treated with acid, Dry Blood and Fish, Potash and Magnesia Salts. No adulteration of any kind is used, and every ton is sold under a guaranteed analysis. One ton or one thousand tons are almost exactly alike, and for excellent mechanical condition and high analysis have no superior in the market. The superiority of Pure Bone over any other Phosphatic Material for Fertilizer use is so well known that it needs no explanation. The large and constantly increasing demand for the Fertilizers manufactured by the CALIFORNIA FERTILIZER WORKS is the best possible proof of their superior quality.

A Stock of these Fertilizers will be kept constantly on hand and for sale on the usual terms, by

C. Brewer & Co., Ltd.

HONOLULU AGENTS CALIFORNIA FERTILIZER WORKS.

TANKS.

There are many places in town where the water will run but a few hours each day in the pipes. Such places are not bothered much, however, if provided with one of our

PATENT NON-SHRINKING WATER TANKS

which we sell in all sizes, from 500 to 10,000 gallons, for it is an easy matter to get the tank full while the water is running in pipes, then you have all the water you want when water will not run. These are made of best quality, clear, seasoned redwood lumber, and every tank is fully guaranteed, both in material and workmanship. PERKINS WINDMILLS will also keep these tanks full. We sell Tanks and Windmills.

E. O. HALL & SON, Ltd.

GIVEN AWAY FREE!

To every purchaser of a 30 cent box, containing three cakes of EGG WHITE SOAP, we will give free a beautiful picture worth twice the price of the soap.

WHITE

Nothing else like it. Makes the skin white and as smooth as velvet. Equal to any 25 cent soap on the market. Single Cake for 10 cents.

OF

Perfumed with delicate odor from French Flowers. Leaves a sweet refined odor made from the sweetest materials obtainable. The grandest soap for the toilet and complexion.

EGGS

Those using EGG WHITE SOAP will not suffer from chapped face or hands. SAMPLE Cake given free on application. Come early as the supply of handsome pictures is limited. WE ARE SOLE AGENTS.

Anti-Caloric Boiler Compound.

As this is about the season when grinding on the plantations is about over and managers are considering putting their plant in condition for next season's grinding and in order that we may catch all the contemplated moves we want to call the attention of the plantation managers to our

ANTI-CALORIC BOILER COMPOUND.

At a recent test made by Engineer Kopke of the Pioneer Mill, Lahaina, Maui, the following results were disclosed:

Asbestos - - - 115F.
Scotch Compound - 108F.
ANTI-CALORIC - - 101F.

Is it necessary to say anything more than that
ANTI-CALORIC
BOILER COMPOUND
is economical in every way?

A PIONEER GONE

Death of Aswan, Representative
Chinese Citizen.

ACTIVE BUSINESS CAREER HERE

Had Been in the Islands Forty-Five Years.
Was a Rice Factor—64 Years
of Age—Funeral.

Aswan, who has been prominent in the Chinese colony here for forty-five years, died at 1 o'clock yesterday afternoon at his residence on Nuuanu street. He was 64 years of age and had been suffering from heart trouble for some months. Aswan was a pio-

ASWAN.

neer in the rice business and at one time was a wealthy factor in the growth, milling and sale of the product. Lately he has not been so prosperous. Aswan leaves a family of a Chinese wife and six sons and three daughters. His first wife, a Hawaiian woman, died some years ago. The wife of Ed Imhoff, the comprador, is a daughter of Aswan.

The funeral of Aswan will be held this afternoon. The man had much attention from Chinese during his last hours. Yesterday forenoon he was given the last rites under Chinese forms and a number of Europeans witnessed the ceremonies. Aswan had been shaven and clad in fine new gown and blouse and cap. Prayer papers were burned and there was wailing by professional mourners.

In all of Aswan's intercourse with citizens and merchants of other nationalities during his long business career here he was regarded as reliable and honest. Though not a dealer in opium he was an expert on the drug and often passed upon consignments coming in to the hands of Government physicians and others.

About forty years ago Aswan was servant in the family of C. E. Williams, the veteran furniture dealer and undertaker, now abroad. Aswan was a faithful, saving and ambitious young fellow then. He had business ideas and with the assistance of Mr. Williams was able to branch out for himself. At first he had coffee shops and small stores. Then he abandoned the restaurants and set out for a mercantile career. He had as many as a half dozen stores in Honolulu and on Oahu at one time and had establishments on the other islands. Aswan was one of the heaviest losers by the fire of 1885, which destroyed several acres of buildings in the business part of town. He had just received a full ship's cargo of goods from China and had the new property principally in a store that was supposed to be fireproof, but that burned fast as the rest of them when it was once reached by the flames. A number of other merchants had brought goods to this store under the impression that it would stand. Nothing was insured. It was after this that Aswan went into rice, but he never made a recoup.

On one occasion Aswan brought himself from China a ship loaded with laborers and merchandise. This craft was wrecked off Moikoi without loss of life, but scarcely any of the cargo was saved. Aswan mistook his business seemed never to discourage him. Without accidents he would have been one of the wealthiest men of the islands. He was at one time interested in sugar, but here again the evil genius made matters go wrong somehow. Through all his trials Aswan was scrupulously honest. He was a very hospitable man and was appreciative of the value of education to his children and to all. It was his chief effort on holidays to be especially kind to the teachers and others connected with institutions in which his children were being schooled.

HIGHER COURTS.

Schooner Mohikana to Be Sold to Satisfy Lien.

The Supreme Court has reversed the decision of the Hilo district magistrate in the case of C. S. Bradford vs. M. H. Luffy, a suit to recover five per cent brokerage for selling certain lands. Defendant entered a plea to the effect that the charge of five per cent came

under the statute of frauds, which was sustained by the district magistrate. The Supreme Court found just the contrary to be the case. Judge Stanley has ordered the sale of the schooner Mohikana to satisfy the lien of Henry Robinson. The claim of J. C. Denny against the vessel is set aside until the lien mentioned is satisfied.

The case of the Republic vs. Makani-nana, larceny of \$39 in cash from E. R. Hendry, on Maui, will be heard in Judge Stanley's court next Monday.

Loses Three Toes.

Second Mate Knight of the bark Amy Turner had three toes on his right foot cut completely off yesterday afternoon by the falling of a heavy piece of galvanized water pipe from the slings of that vessel while discharging at Irmgard wharf. The sling load had loosened somewhat and two lengths of the pipe had already fallen giving warning of the danger. Knight thought, however, the rest would hold and stepped toward the hatch when the piece fell and foremost smashing his toes to a pulp. He was taken immediately to the Queen's Hospital and his toes attended to. One foot will be shorter than it really ought to be but in other respects, unless some unforeseen change occurs, Knight will be on deck again in about a week.

RODERICK DHU'S HILO CARGO.

The bark Roderick Dhu sailed from San Francisco for Hilo June 29th with the following cargo: 716 bbls. flour, 869 tons fertilizer, 500 cs. coal oil, 554 lbs. sugar, 970 bales hay, 2555 sks. bran, 25 cts. corn, 6459 lbs. lard, 48 cts. wheat, 1176 lbs. corn, 7500 lbs. salt, 35,546 lb. lumber, 201,579 lbs. rolled barley, 2322 cts. barley, 1117 lbs. cheese, 4406 lbs. and 33 cs. bread, 8,0 lbs. dried fruits, 213 cs. canned goods, 4580 lbs. beans, 22 cs. and 10 cts. salmon, 7 rolls leather, 100 sks. middlings, 1918 lbs. butter, 18 coils rope, 2156 lbs. potatoes, 12 pkgs. wire, 5 cs. gasoline, 50 bbls. rosin, 25 pkgs. dry goods, 85 bbls. lime, 400 lbs. meal, 20 cs. soap, 20 cs. paints and oils, 800 lbs. codfish, 10 cs. hardware, 1220 lbs. hams and bacon.

NATIVES FOR NERO'S BOATS.

An officer of the Monadnock stated last night that seven natives had signed for the collier Nero's boat crew to be used for transferring coal from the collier to the monitor while at sea. The Nero will finish coaling today and both vessels will take on stores with a view of sailing immediately on the arrival of the Coptic Wednesday night. It is probable that Commander Whiting will not delay leaving after Thursday morning. The schooners Luka and Lavina and steam scow Wela-ka-hao were lightening coal to the Monadnock and Nero yesterday and will be kept busy all of today.

A NOTED ARTIST.

Frank D. Millet Who Accompanied General Merritt to Manila.

One of the most talented men who accompanied General Merritt to Manila was Frank D. Millet, who goes as the correspondent of the London Times and as the representative of the publications of Harper Brothers of New York.

Millet left London on June 17, the day after he was engaged to go to Manila, and steamed to San Francisco as fast as possible. He has a beautiful home at Broadway, about 100 miles from London, where other artists, and also Mary Anderson Navarro, reside. This place has been described in print by admiring travelers. He hurried thither from London, packed what he needed, took leave of his family inside of an hour, and started across the Atlantic. He got to New York one morning, received his baggage at 1:20 o'clock in the afternoon, and at 1:50 o'clock was on the train for San Francisco. The trip from England was accomplished in eleven days. Millet has been a war correspondent before this, and has gone over much of the world, and the hasty journey was no novelty to him. He is so young looking that it would not be thought, judging by outward appearances alone, that he has lived long enough to achieve the success and reputation which he has won as artist and author. Like W. W. Story, the deceased sculptor, Du Maurier, F. Hopkinson Smith and some others whose names are known to the readers of today, he has unusual literary talent coupled with artistic ability. He writes for the magazines, and his stories have been published in book form. Though he has not the aspect of a war veteran, he served in the Union Army as a drummer boy, enlisting when he was 15 years old. He graduated from Harvard in 1869. He began his newspaper work on the Boston Advertiser, and then went to the New York Herald. In 1877 and 1878 he was the Russo-Turkish war correspondent for the London News, and he furnished the London Graphic with sketches of battles. Out of eighty correspondents in the field he was the only one who remained to the end of hostilities. He received five decorations in that war, two being for personal bravery on the battle field.

He was director of the decorations at the Chicago Exposition, and the work of that position occupied his attention for a year and a half, beginning in 1892. He had charge of the coloring of the great fair. Then he returned to the painting of pictures, which bring high prices.

WHARF AND WAVE.

ALONG THE CITY FRONT, JULY 8.—The departure of the troops was the chief event along shore today. The deep water sailing vessels arriving today were the barkentine Archer with merchandise from San Francisco which will discharge at Brewer's wharf and the bark Seminole laden with coal from Nanaimo. The bark Mohican is loading sugar at Inter-Island wharf. The barkentine J. D. Spreckels is discharging at Allen street. The steamer Waialeale was taken off the marine railway but a leak having been discovered, returned for further repairs. The liners Gaelic from Yokohama and Miowera, from Victoria, tied up to Pacific Mail wharf and Oceanic dock respectively during the morning and sailed for destinations at midnight. The Gaelic took a lot of bananas away for San Francisco and the Miowera took on the usual big load of coal in sacks to use on the way to Sydney. The ship Marie Hackfeld has finished discharging. The Kinan, with a full cargo of produce from Hawaii ports, and a deck load of cattle from Parker's ranch, arrived at noon. The W. G. Hall sailed for Kona and Kau and the Noeau for Honokaa during the day with full cargoes.

ALONG THE CITY FRONT, Sunday, July 10.—The steamer Claudine, with a full cargo of Maui produce, arrived in port this morning. Fifty cabin and fifty-five deck passengers were on the list. The schooner Ada, with Ulupalakua cattle, came in from Makana last Saturday. The bark Mohican, with 21,574 bags of sugar, valued at \$86,593, sailed for San Francisco yesterday noon. The cargo was shipped by Castle & Cooke, C. Brewer & Co., and F. A. Shaefer & Co. The bark C. D. Bryant is at the Oceanic wharf loading sugar for San Francisco. The steamer Iwa sails tomorrow for Hanalei, Waimea and Kalahele. The steamer Ke Au Hou, from Kauai, with a full cargo of sugar, arrived this morning and reported cleaning up all the paddy on Hanalei beach, but some paddy is still left mauka. Weather light and wind from North. Light rain. Purser J. Grube, of the Mikahala, reports the following sugar awaiting shipment last night on Kaula: V. Kaula, 1,200; Makawell, 8,000; Keala, 7,000; Gay & Robinson, 2,000, and Hanamailu, 720. Total, 18,920 bags. The steamer Kaula was Koloa discharging coal yesterday noon and had on board part of the Waimea fertilizer and all the lumber and shingles from this port. Eleale and Makawell freight has all been landed, but on account of the heavy swell at Waimea nothing could be discharged there. Kekaha mill starts in grinding tomorrow morning. The bark Chas. B. Kenny, coal laden from Nanaimo, is in the stream with a cargo for the Inter Island company. The schooner Maria E. Smith, which arrived from Aberdeen with lumber, will discharge at Allen street. The four-masted schooner Nokomis came in late this afternoon with Puget Sound lumber and tied up to the Railway buoy. The bark R. P. Rithet finished discharging yesterday. The United States collier Nero has commenced taking on a deck load of coal in sacks, which will be used by the monitor Monadnock as soon as her own deck load is exhausted. The Monadnock and Nero expect to sail Wednesday next.

ALONG THE WATER FRONT, July 11.—The schooner Mokihina has been ordered sold. The steamer Iwa sailed this afternoon for leeward Kaula ports in search of taro, a great scarcity of which still continues throughout the islands; her charterers are John Wilson, Henry Crane and Joe Paul, the last named having been put in exchange; the Iwa will go to Kalahele, that historic spot, where the tragedy occurred during the hunting of the leper Koolau five years ago. This beautiful valley is full of taro and it is expected that the Iwa will get a full cargo from there. The schooner Nokomis is awaiting a berth at Allen & Robinson's wharf. The schooner Maria E. Smith, brigantine John D. Spreckels and bark C. D. Bryant are at Oceanic wharf. The steamer Waialeale comes off the marine railway tomorrow; will take on coal and stores for her trip to the guano islands and it is expected she will get away about Friday. The steamer Ke Au Hou is up and loading for Kahuku and Punaluu to sail tomorrow afternoon at 4 o'clock and will take 75 tons to the plantation at Kahuku. It is probable that the steamer Iwaiani, which has been tied up for a month past, will be put on the Hanakula route for the Inter Island company next week, as, with the Waialeale gone and Mauna Loa laid up, there will be lots of work for the remaining fleet, the Ke Au Hou being especially busy, one day down to Kaula, then to Maui, and her next trip will probably be to Kona.

The schooner Metha Nelson has been chartered for lumber from Tacoma to Hilo by Charles Nelson.

The American ship J. B. Brown, 1,407 tons, has been chartered by John Rosenfeld's Sons for coal from Nanaimo to Honolulu.

The American schooner Lizzie Vance, 333 tons, loads lumber at Eureka for Honolulu by J. B. Hanly & Co.

CHAS. BREWER & CO.'S
New York Line.

The Bark "Nuuanu" will sail from New York to Honolulu on or about July 15, 1898.

If sufficient inducement offers. Advances made on shipments on liberal terms. For further particulars, address Messrs. CHAS. BREWER & CO., 27 Kilby Street, Boston or

C. BREWER & CO., LTD., Honolulu Agents.

Notice to Ship Captains.

U. S. Branch Hydrographic Office, San Francisco, Cal.
By communicating with the Branch Hydrographic Office in San Francisco, captains of vessels who will co-operate with the Hydrographic Office by recording the meteorological observations suggested by the office, can have forwarded to them at any desired port, and free of expense, the monthly pilot charts of the North Pacific Ocean and the latest information regarding the dangers to navigation in the waters which they frequent.

Mariners are requested to report to the office dangers discovered, or any other information which can be utilized for correcting charts or sailing directions, or in the publication of the pilot charts of the North Pacific.

W. S. HUGHES,
Lieutenant, United States Navy.

METEOROLOGICAL RECORD.

By the Government Survey. Published Every Monday.
